

transport of radiological contamination in sodium loops. The sodium loop tests were halted in 1982 and the loop was dismantled in 1986.

To allow the release of Building 023 for use without radiological restrictions, all radioactive material/contamination was removed from the facility. This decontamination and decommissioning was performed in three phases, starting in 1986 with the removal of the sodium loop and ending in 1993 after removal of the remainder of the radioactive liquid waste holdup system. After the decontamination efforts were completed, a comprehensive final survey of the building interior was performed to demonstrate compliance with standards for release without radiological restrictions. The State of California Department of Health Services has concurred that the proposed release guidelines provide adequate assurance for release without further radiological restrictions.

Rockwell/Rocketdyne performed a final radiological survey in 1994. The Environmental Survey and Site Assessment Program of the Oak Ridge Institute for Science and Education performed independent verification of the decontamination project in 1994. Post-decontamination surveys have demonstrated that Building 023 is in compliance with DOE decontamination criteria and standards for release without radiological restrictions. DOE intends to comply with applicable Federal, State, and local requirements which relate to property transfer.

Final DOE costs for the decontamination of Building 023 were \$89,000, including final survey and waste disposal. The final cost for Rockwell International was approximately \$90,000.

No appreciable personnel radiation exposure was anticipated or encountered from activities associated with the decontamination of Building 023.

The certification docket will be available for review between 9:00 a.m. and 4:00 p.m., Monday through Friday (except Federal holidays), in the U.S. DOE Public Reading Room located in Room 1E-190 of the Forrestal Building, 1000 Independence Avenue, S.W., Washington, D.C. Copies of the certification docket will also be available at the following locations: DOE Public Document Room, U.S. DOE, Oakland Operations Office, the Federal Building, 1301 Clay Street, Oakland, California; California State University, Northridge, Urban Archives Center, Oviatt Library, Room 4, 18111 Nordhoff, Northridge, California; Simi Valley Library, 2629 Tapo Canyon Road, Simi

Valley, California; and the Platt Branch, Los Angeles Public Library, 23600 Victory Boulevard, Woodland Hills, California.

DOE has issued the following statement of certification:

Statement of Certification: Energy Technology Engineering Center, Building 023

The U.S. Department of Energy, Oakland Operations Office, Environmental Restoration Division, has reviewed and analyzed the radiological data obtained following decontamination of Building 023 at the Energy Technology Engineering Center. Based on analysis of all data collected and the results of independent verification, DOE certifies that the following property is in compliance with DOE radiological decontamination criteria and standards as established in DOE Order 5400.5. This certification of compliance provides assurance that future use of the property will result in no radiological exposure above applicable guidelines established to protect members of the general public or site occupants. Accordingly, the property specified below is released from DOE's Environmental Restoration Program.

Property owned by Boeing North American Incorporated:

Building 023, at the Energy Technology Engineering Center (situated within Area IV of the Santa Susana Field Laboratory), located in a portion of Tract "A" of Rancho Simi, in the County of Ventura, State of California, as per map recorded in Book 3, Page 7 of Miscellaneous Records of Ventura County.

Issued in Washington, D.C. on February 28, 1997.

James J. Fiore,

*Acting Deputy Assistant Secretary for Environmental Restoration.*

### Federal Energy Regulatory Commission

[Docket No. TM97-2-48-000]

#### ANR Pipeline Company; Notice of Proposed Changes in FERC Gas Tariff

March 6, 1997.

Take notice that on February 28, 1997, ANR Pipeline Company (ANR) tendered for filing as part of its FERC Gas Tariff, Second Revised Volume No. 1, the following revised tariff sheets proposed to be effective April 1, 1997:

Sixth Revised Sheet No. 19

Third Revised Sheet No. 68H

ANR states that the purpose of this filing is to comply with the annual redetermination of the levels of ANR's Transporter's Use (%) as required by ANR's currently effective tariff, to become effective April 1, 1997. This redetermination reflects an increase in certain fuel use percentages that comprise ANR's fuel matrix applicable to transportation service on its transmission facilities, storage service and gathering service.

ANR states that all of its Volume No. 1 and Volume No. 2 customers and interested State Commissions have been mailed a copy of this filing.

Any person desiring to be heard or to protest this filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Sections 385.214 and 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed as provided in Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available in the Public Reference Room.

#### ANR Pipeline Company; Notice of Compliance Filing

March 6, 1997.

Take notice that on March 3, 1997, ANR Pipeline Company (ANR) tendered for filing, as part of its FERC Gas Tariff, Second Revised Volume No. 1, the following revised tariff sheets, proposed to become effective December 1, 1996:

Substitute Second Revised Sheet No. 37

Substitute Original Sheet No. 37A

Substitute Fifth Revised Sheet No. 39

Substitute Sixth Revised Sheet No. 120

ANR states that these tariff changes are being filed pursuant to the Commission's February 14, 1997 letter order in the captioned proceeding. The revised tariff sheets address the priority of Rate Schedule FTS-2 service during the ten (10) days each month that such service will not be scheduled as firm service.

Any person desiring to protest this filing should file a protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Section 385.211 of the Commission's Rules and Regulations. All such protests must be filed in accordance with Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.
