National Park Service

Notice of Inventory Completion for Native American Human Remains and Associated Funerary Objects from Washington State in the Possession of the Burke Museum, University of Washington, Seattle, WA

AGENCY: National Park Service

ACTION: Notice

Notice is hereby given in accordance with provisions of the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3003 (d), of the completion of an inventory of human remains and associated funerary objects from Washington State in the possession of Burke Museum, University of Washington, Seattle, WA.

A detailed assessment of the human remains was made by the Burke Museum professional staff in consultation with representatives of the Puyallup Tribe of Indians.

In 1959, human remains representing four individuals were removed from the property of Mr. M.V. Petersen during an excavation of Mr. Petersen's basement by Mr. James C. Garner and Mr. Butler. No known individuals were identified. The seventeen associated funerary objects include shell fragments, shells, one mammal bone, two fire-cracked rocks, an unmodified cobble, a basal notched point, an adze blade, and two antler adze handles.

Mr. Petersen's property is located in the historically and ethnographically documented traditional territory of the Puyallup Tribe of Indians.

In 1915, human remains representing one individual were recovered near Tacoma, WA, by Mr. Edward F. Drake. No known individual was identified. No associated funerary objects are present.

Tacoma is located within historically and ethnographically documented traditional territory of the Puyallup Tribe of Indians.

In 1948, human remains representing one individual were recovered from the Minter VI Site, Minter Bay, WA, by Mr. John Winterhouse, Jr., during a survey of archeological sites in Southern Puget Sound, WA. No known individual was identified. No associated funerary objects are present.

Minter Bay is located within the historically and ethnographically documented traditional territory of the Puyallup Tribe of Indians.

Based on the above mentioned information, officials of the Burke Museum have determined that, pursuant to 43 CFR 10.2 (d)(1), the human remains listed above represent the physical remains of six individuals of Native American ancestry. Officials of the Burke Museum have also determined that, pursuant to 25 U.S.C. 3001 (3)(A), the seventeen objects listed above are reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony. Lastly, officials of the Burke Museum have determined that, pursuant to 25 U.S.C. 3001 (2), there is a relationship of shared group identity which can be reasonably traced between these Native American human remains and associated funerary objects and the Puyallup Tribe of Indians.

This notice has been sent to officials of the Puyallup Tribe of Indians. Representatives of any other Indian tribe that believes itself to be culturally affiliated with these human remains and associated funerary objects should contact Dr. James Nason, Chair of the Repatriation Committee, Burke Museum, Box 353010, University of Washington, Seattle, WA 98195; telephone: (206) 543-9680, before April 11, 1997. Repatriation of the human remains and associated funerary objects to the Puyallup Tribe of Indians may begin after that date if no additional claimants come forward.

The National Park Service is not responsible for the determinations within this notice.

Dated: March 7, 1997.
