

stating that effective competition exists. Also, Section 76.915 provides that if cable operators have been denied a change in status by their respective LFAs, then operators may seek reviews of those findings at the Commission by filing petitions for revocation. The information is used by the Commission and LFAs to examine potential changes in the regulatory status of cable systems resulting from the presence of effective competition in the systems' franchise areas.

Title: Terrain Shielding Policy.

Form Number: None.

Type of Review: Extension of an existing collection.

Respondents: Business or other for-profit, not-for-profit institutions, state, local or tribal government.

Number of Respondents: 300.

Estimated time per response: 10 hours (1 hours respondent/9 hours consulting engineer).

Total annual burden: 300.

Needs and Uses: The terrain shielding policy requires respondents to submit either a detailed terrain study, or to submit letters of assent from all potentially affected parties and graphic depiction of the terrain when intervening terrain prevents a low power television applicant from interfering with other low power television or full-power television stations. The data is used by FCC staff to determine if adequate interference protection can be provided by terrain shielding and if a waiver of Sections 74.705 and 74.707 of the Rules is warranted.
