

request for Office of Management and Budget (OMB) approval. All comments will become a matter of public record.

FOR FURTHER INFORMATION CONTACT: Dennis Burnett at 202-208-7675.

SUPPLEMENTARY INFORMATION: The objectives of the special use permit system are to assure that requests for special park uses are evaluated by park managers, in accordance with applicable statutory law and NPS regulations; that a consistent set of standards and permitting criteria are used throughout the agency; and to the extent possible, that a single permitting document be used to grant a variety of privileges and benefits, and to document the many activities covered under this program. Use of a single permit streamlines and reduces the

costs of administering the NPS information collection program. Use of the special use permit will also significantly reduce the information collection burden on affected persons through the use of a standardized and timesaving format.

The Special Use Permit is an extension of the NPS statutory responsibilities to protect the park areas it administers and to manage the public use thereof (16 U.S.C. 1 & 3). NPS regulations codified in 36 CFR Parts 1 through 7, 12 and 13, are designed to implement statutory mandates that provide for resource protection and public enjoyment. Several regulations contain information collection requirements previously approved by the OMB (1024-0026) that were designed to evaluate requests for access

and/or approval to engage in otherwise restricted or limited activities within park areas.
