

WYO company per monthly report, to satisfy all requirements in the Financial Control Plan and WYO Accounting Procedures Manual. The 33-minute burden estimate is based on manual posting of company data onto these reports. Total annual burden for this request is 792 hours.

Frequency of Reporting: Monthly.

Estimated Cost: Actual "cost" of the WYO program to the government is difficult to assess because, were it not for the WYO companies, the government would incur operating expenses, agent's commission expenses and loss adjustment expense in connection with the policies issued by the WYO company. The annualized cost of the report in question to the Federal government and to the respondents is negligible.

Agency Information Collection Activities: Proposed Collection; Comment Request

ACTION: Notice and request for comments.

SUMMARY: The Federal Emergency Management Agency (FEMA), as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed continuing information collections. In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3506(c)(2)(A)), this notice seeks comments concerning FEMA's request for personal financial data from its individual debtors.

SUPPLEMENTARY INFORMATION: Under FEMA's debt collection regulations, 44 CFR § 11.36(b), FEMA Debt Collection Officers (DCO's) are required to maintain current credit data on FEMA's debtors including, but not limited to, the individual debtor's own financial statement, executed under penalty for false claim, concerning his/her assets and liabilities and his/her income and expenses. FEMA Form 22-13, Debt Collection Financial Statement, collects such data directly from the individual debtor. FEMA DCO's use these data for collecting debts due the United States and arising from operations of FEMA programs. DCO's also use these data to determine debtor's ability to pay debts due FEMA, to locate debtor's assets, and for skip-tracing purposes.

Collection of Information

Title: Debt Collection Financial Statement.

Type of Information Collection: Extension.

OMB Number: 3067-0122.

Form Number: FEMA Form 22-13, Debt Collection Financial Statement.

Abstract: FEMA may request of individuals who are debtors to provide personal financial information on FEMA Form 22-13 concerning their current financial position. This information includes debtors' home and employment addresses, names of spouse (if any), any children, their ages, amounts and sources of the debtors' and spouses' (if any) salaries, stocks, bonds and other securities, real and personal property owned and bank accounts and names of creditors and amounts owed to these creditors.

With this information, FEMA DCO's can evaluate whether to allow debtors to pay the FEMA debts under installment repayment agreements and, if so, under what terms and amounts. FEMA DCO's

also use these data to determine whether FEMA should suspend or terminate collection efforts or compromise the respondent's debts. These data also are used for skip-tracing missing debtors and for location of debtors' assets if the debts are to be judicially enforced.

Providing information on FEMA Form 22-13 is voluntary on the part of the debtor. However, if the debtor does not provide the information requested by FEMA, the FEMA DCO may use more severe collection methods.

Affected Public: Persons who owe debts to the United States under programs administered by FEMA and who wish to either (1) enter into installment repayment agreements with FEMA, or (2) have their FEMA debts compromised, suspended or terminated under the provisions of 44 CFR §§ 11.50 and 11.51.

Estimated Total Annual Burden Hours: 3,000.

Estimated Cost: None to the debtor since he/she is retrieving information from memory or from the debtor's own, readily available, personal records.

COMMENTS: Written comments are solicited to (a) evaluate whether the proposed data collection is necessary for the proper performance of the agency, including whether the information shall have practical utility; (b) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) enhance the quality, utility, and clarity of the information to be collected; and (d) minimize the burden of collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g. permitting electronic submission of responses.
