

could complement existing modes of transportation \* \* \*." The Secretary has assigned responsibility for preparing the report to the Federal Railroad Administrator, working closely with the MSAC. The Secretary's report to the Congress will discuss the extent to which the above and other potential magnetic levitation projects warrant immediate application, taking into account such factors as ability to be financed, benefits vs. costs, extent of public commitment and support, and national significance.

This meeting will focus on the financing of near-term applications of maglev technology. Experts with backgrounds in the financing of public-private partnerships have been invited to address the Committee.

### National Highway Traffic Safety Administration

#### Announcing a Meeting of the Crash Avoidance Research Subcommittee of the Motor Vehicle Safety Research Advisory Committee

**AGENCY:** National Highway Traffic Safety Administration (NHTSA), DOT.

**ACTION:** Meeting Announcement.

**SUMMARY:** This notice announces a public meeting of the Crash Avoidance Research Subcommittee of the Motor Vehicle Safety Research Advisory Committee (MVSRAAC). The MVSRAAC was established in accordance with the provisions of the Federal Advisory Committee Act to obtain dependent advice on motor vehicle safety research. Discussions at this meeting will include specific topics in NHTSA's Crash Avoidance research programs.

**DATE AND TIME:** The meeting is scheduled from 9:00 a.m. to 12 noon on April 14, 1997.

**ADDRESSES:** The meeting will be held in room 6244-6248 of the U. S. Department of Transportation Building, which is located at 400 Seventh Street, S.W., Washington, DC 20590.

**SUPPLEMENTARY INFORMATION:** In May 1987, the Motor Vehicle Safety Research Advisory Committee was established. The purpose of the Committee is to provide an independent source of ideas for motor vehicle safety research. The MVSRAAC will provide information, advice and recommendations to NHTSA on matters relating to motor vehicle safety research, and provide a forum for the development, consideration, and

communication of motor vehicle safety research, as set forth in the MVSRAAC Charter. The Crash Avoidance Research Subcommittee will provide information, advice, and recommendation to NHTSA on matters relating to NHTSA crash avoidance research.

The meeting is open to the public, but attendance may be limited due to space availability. Participation by the public will be determined by the Committee Chairperson.

A public reference file (Number 88-01) has been established to contain the products of the Committee and will be open to the public during the hours of 9:30 a.m. to 4:00 p.m. at the National Highway Traffic Safety Administration's Technical Reference Division in room 5108 at 400 Seventh Street, S.W., Washington, DC 20590, telephone: (202) 366-2768.

**FOR FURTHER INFORMATION CONTACT:** Mrs. Donna Stemski, Office of Crash Avoidance Research and Development, 400 Seventh Street, S.W., room 6206, Washington, DC 20590, telephone: (202) 366-5662.

Issued on: March 18, 1997.

**Joseph N. Kianthra,**  
*Chairperson, Crash Avoidance Subcommittee, Motor Vehicle Safety Research Advisory Committee.*

### [Docket No. 97-017; Notice 1]

#### Notice of Receipt of Petition for Decision That Nonconforming 1990 Porsche 928 S4 Passenger Cars Are Eligible for Importation

**AGENCY:** National Highway Traffic Safety Administration, DOT.

**ACTION:** Notice of receipt of petition for decision that nonconforming 1990 Porsche 928 S4 passenger cars are eligible for importation.

**SUMMARY:** This notice announces receipt by the National Highway Traffic Safety Administration (NHTSA) of a petition for a decision that a 1990 Porsche 928 S4 that was not originally manufactured to comply with all applicable Federal motor vehicle safety standards is eligible for importation into the United States because (1) it is substantially similar to a vehicle that was originally manufactured for importation into and sale in the United States and that was certified by its manufacturer as complying with the safety standards, and (2) it is capable of being readily altered to conform to the standards.

**DATES:** The closing date for comments on the petition is April 25, 1997.

**ADDRESSES:** Comments should refer to the docket number and notice number, and be submitted to: Docket Section, Room 5109, National Highway Traffic Safety Administration, 400 Seventh St., SW, Washington, DC 20590. [Docket hours are from 9:30 am to 4 pm]

**FOR FURTHER INFORMATION CONTACT:** George Entwistle, Office of Vehicle Safety Compliance, NHTSA (202-366-5306).

### SUPPLEMENTARY INFORMATION:

#### Background

Under 49 U.S.C. 30141(a)(1)(A), a motor vehicle that was not originally manufactured to conform to all applicable Federal motor vehicle safety standards shall be refused admission into the United States unless NHTSA has decided that the motor vehicle is substantially similar to a motor vehicle originally manufactured for importation into and sale in the United States, certified under 49 U.S.C. 30115, and of the same model year as the model of the motor vehicle to be compared, and is capable of being readily altered to conform to all applicable Federal motor vehicle safety standards.

Petitions for eligibility decisions may be submitted by either manufacturers or importers who have registered with NHTSA pursuant to 49 CFR Part 592. As specified in 49 CFR 593.7, NHTSA publishes notice in the **Federal Register** of each petition that it receives, and affords interested persons an opportunity to comment on the petition. At the close of the comment period, NHTSA decides, on the basis of the petition and any comments that it has received, whether the vehicle is eligible for importation. The agency then publishes this decision in the **Federal Register**.

Champagne Imports, Inc. of Lansdale, Pennsylvania ("Champagne") (Registered Importer 90-009) has petitioned NHTSA to decide whether 1990 Porsche 928 S4 passenger cars are eligible for importation into the United States. The vehicle which Champagne believes is substantially similar is the 1990 Porsche 928 S4 that was manufactured for importation into, and sale in, the United States and certified by its manufacturer as conforming to all applicable Federal motor vehicle safety standards.

The petitioner claims that it carefully compared the non-U.S. certified 1990 Porsche 928 S4 to its U.S. certified counterpart, and found the two vehicles to be substantially similar with respect to compliance with most Federal motor vehicle safety standards.
