Bureau of Reclamation

Review of Existing Coordinated Long-Range Operating Criteria for Colorado River Reservoirs

AGENCY: Bureau of Reclamation, Interior.

ACTION: Notice of public meeting.

SUMMARY: The Bureau of Reclamation will be conducting a public meeting for a preliminary review of the comments received on the review of the 1970 Criteria for Coordinated Long-Range Operation of Colorado River Reservoirs (Criteria). Members of the Reclamation review team will be available to discuss the comments and Reclamation's analyses and responses to the key issues, and to receive any additional input from the public regarding the analyses and responses. In addition to the public meeting, Reclamation will extend a final comment period through May 16, 1997.

As part of the Criteria review, Reclamation has incorporated an active public involvement process that includes all interested stakeholders. This public process is designed to solicit comments on Criteria provisions that may need revision as the result of actual operating experience, and to disclose the results of the analysis.

Reclamation published a notice in the **Federal Register** on October 31, 1996, asking for written comments and announcing two public meetings to be held in November and December 1996. Detailed written comments were received from 17 interested agencies and the two public meetings provided Reclamation with numerous issues, comments, and concerns regarding possible changes to the Criteria.

DATE AND LOCATION: The public meeting will be held at the following time and location:

Las Vegas, Nevada—Tuesday, April 22, 1997, at 12 noon at McCarran Airport, Commissioners Meeting Room, 5th Floor, Main Terminal.

FOR FURTHER INFORMATION CONTACT: Bruce Moore, Bureau of Reclamation, 125 South State Street, Room 6107, Salt Lake City, Utah 84138-1102 telephone (801) 524-3702, or Jayne Harkins, Bureau of Reclamation, P.O. Box 61470, Boulder City, Nevada 89005, telephone (702) 293-8190.

SUPPLEMENTARY INFORMATION: The 1970 Criteria for Coordinated Long-Range Operation of Colorado River Reservoirs, promulgated pursuant to Public Law 90-537, were published in the **Federal Register** on June 10, 1970. The Criteria provided for the coordinated long-range operation of the reservoirs constructed and operated under the authority of the Colorado River Storage Project Act, the Boulder Canyon Project Act, and the Boulder Canyon Project Adjustment Act for the purposes of complying with and carrying out the provisions of the Colorado River Compact, the Upper Colorado River Basin Compact, and the Mexican Water Treaty.

The 1970 Criteria specified that a formal review take place at least once every five years with participation by such Colorado River Basin state representatives as each Governor may designate, and other parties and agencies as the Secretary of the Interior may deem appropriate. Public Law 90-537 allows the Secretary, as a result of actual operating experience or unforeseen circumstances, to modify the Criteria to better accomplish the purposes of the two basin compacts and the Mexican Water Treaty. The Commissioner of Reclamation is the authorized agent of the Secretary for the purpose of conducting and coordinating this review.

This is the fifth review of the Criteria conducted since its initial promulgation in 1970. Previous reviews of the Criteria were initiated in 1975, 1980, 1985, and 1990. They resulted in no changes to the operating Criteria.
