

exemption (TME) under section 5(h)(1) of the Toxic Substances Control Act (TSCA) and 40 CFR 720.38. EPA designated the original test marketing application as TME-91-25. The test marketing conditions are described below.

EFFECTIVE DATE: March 20, 1997.

FOR FURTHER INFORMATION CONTACT: Darlene Jones, New Chemicals Branch, Chemical Control Division (7405), Office of Pollution Prevention and Toxics, Environmental Protection Agency, Rm. E-447, 401 M St. SW., Washington, D.C. 20460, (202 260-2279). e-mail: jones.darlene.@epamail.epa.gov.

SUPPLEMENTARY INFORMATION: Section 5(h)(1) of TSCA authorizes EPA to exempt persons from premanufacture notification (PMN) requirements and permit them to manufacture or import new chemical substances for test marketing purposes if the Agency finds that the manufacture, processing, distribution in commerce, use, and disposal of the substances for test marketing purposes will not present an unreasonable risk of injury to health or the environment. EPA may impose restrictions on test marketing activities and may modify or revoke a test marketing exemption upon receipt of new information which casts significant doubt on its finding that the test marketing activity will not present an unreasonable risk of injury.

EPA hereby approves the modifications of the test marketing period, production volume, and number of customers for TME-91-25. EPA has determined that test marketing of the new chemical substance described below, under the conditions set out in the TME applications and modification requests, and for the modified time periods specified below, will not present any unreasonable risk of injury to health or the environment. Production volume, use, and the number of customers must not exceed that specified in the application. All other conditions and restrictions described in the original Notice of Approval of Test Marketing Application must be met.

TME-91-25

Notice of Approval of Original Application: October 3, 1991 (56 FR 50121).

Production Volume: 25,000 kilograms per year.

Number of Customers: Confidential.
Modified Test Marketing Period: Confidential.

Commencing On: First day of manufacture.

The Agency reserves the right to rescind approval or modify the conditions and restrictions of an exemption should any new information come to its attention which casts significant doubt on its finding that the test marketing activities will not present any unreasonable risk of injury to health or the environment.

FEDERAL COMMUNICATIONS COMMISSION

Public Information Collections Approved by Office of Management and Budget

March 24, 1997.

The Federal Communications Commission (FCC) has received Office of Management and Budget (OMB) approval for the following public information collections pursuant to the Paperwork Reduction Act of 1995, Public Law 104-13. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid control number. For further information contact Shoko B. Hair, Federal Communications Commission, (202) 418-1379.

Federal Communications Commission.

OMB Control No.: 3060-0056.

Expiration Date: 03/31/2000.

Title: Registration of Telephone and Data Terminal Equipment.

Form No.: FCC Form 730.

Estimated Annual Burden: 2400 respondents; 24 hours per response (avg.); 57,600 total annual burden hours.

Estimated Annual Reporting and Recordkeeping Cost Burden: \$2700.

Description: Telephone and data equipment located on customer premises must be registered with the Commission. Part 68 of FCC's rules and regulations establishes nationwide technical standards for telephone and data equipment designed for connection to the network. Part 68 also sets for the terms and conditions for connection and for the registration of customer provided terminal equipment. See Part 68,

Subparts A-F. The purpose of Part 68 is to protect the network from certain types of harm and interference to other subscribers. FCC Form 730 is used to obtain registration of telephone equipment pursuant to Part 68 of the Commission's Rules. In addition to filing the form, applicants are required to submit exhibits and other informational showings as specified by Part 68. For example, Part 68, Subpart C contains the procedures for registering equipment and lists many of the exhibits and showings that must be filed with the application form. The exhibits and showings are described in Section 68.200(a) through (k). These requirements are also specified in the application form and the application guide. Information submitted is used by the Common Carrier Bureau staff and FCC Laboratory for evaluation of equipment to determine whether such equipment meets the criteria set forth in Part 68 of the Commission's Rules. This is necessary in order to prevent improperly designed equipment from causing harm to the nation's telephone network. FCC Form 730 has been revised. The March 1997 edition of FCC Form 730 form may be obtained either: by calling the Forms Distribution Center at 1-800-418-3676 to order the form; by picking up a copy of the form from the Forms Self Serve Center in Room L-17 at 1919 M Street, Washington, DC 20554; or, by using the Commission's Fax on Demand system. Copies may be ordered via fax 24 hours a day by calling 202-418-0177 from the handset of any fax machine. The document retrieval number is 000730. Follow the system voice prompts and enter the document retrieval number when requested.
OMB Control No.: 3060-0410.

Expiration Date: 3/31/2000.

Title: Forecast of Investment Usage Report and Actual Usage of Investment Report.

Form No.: FCC Reports 495A and 495B.

Estimated Annual Burden: 300 respondents; 40 hours per response (avg.); 12,000 total annual burden hours.

Estimated Annual Reporting and Recordkeeping Cost Burden: \$0.

Description: Section 220 of the Communications Act of 1934, as amended, 47 U.S.C. 220, allows the Commission, at its discretion, to prescribe the forms of any and all accounts, records, and memoranda to be kept by carriers subject to this Act, including the accounts, records and memoranda of the movement of traffic, as well as of the receipts and expenditures of moneys. Section 219(b) of the Communications Act of 1934, as amended, 47 U.S.C. 219(b), authorizes

the Commission by general or special orders to require any carrier subject to this Act to file monthly reports concerning any matters with respect to which the Commission is authorized or required by law to act. The Forecast of Investment Usage Report and Actual Usage of Investment Report implement the FCC's *Joint Cost Order*, CC Docket No. 86-111, 2 FCC Rcd 1298 (1987), which requires that certain telephone plant investments used for both regulated and nonregulated purposes be allocated on the basis of forecasted regulated and nonregulated use. The detection and correction of forecasting errors requires reporting of both forecasted and actual investment usage data. The Forecast of Investment Usage Report is used by carriers to submit the forecasts of investments used. The Actual Usage of Investment Report is used to submit the actual investments used. These reports are part of the Automated Reporting Management Information System (ARMIS). The information contained in these two reports provides the necessary detail to enable this Commission to fulfill its regulatory responsibilities to ensure that the regulated operations of the carriers do not subsidize the nonregulated operations of those same carriers. These reports have been updated to include the OMB control number and expiration date. Copies of the reports may be obtained by contacting Barbara Van Hagen at 202-418-0849.

Public reporting burden for the collections of information is as noted above. Send comments regarding the burden estimate or any other aspect of the collections of information, including suggestions for reducing the burden to the Records Management Branch, Washington, D.C. 20554.

Federal Communications Commission.
