

the Commission by general or special orders to require any carrier subject to this Act to file monthly reports concerning any matters with respect to which the Commission is authorized or required by law to act. The Forecast of Investment Usage Report and Actual Usage of Investment Report implement the FCC's *Joint Cost Order*, CC Docket No. 86-111, 2 FCC Rcd 1298 (1987), which requires that certain telephone plant investments used for both regulated and nonregulated purposes be allocated on the basis of forecasted regulated and nonregulated use. The detection and correction of forecasting errors requires reporting of both forecasted and actual investment usage data. The Forecast of Investment Usage Report is used by carriers to submit the forecasts of investments used. The Actual Usage of Investment Report is used to submit the actual investments used. These reports are part of the Automated Reporting Management Information System (ARMIS). The information contained in these two reports provides the necessary detail to enable this Commission to fulfill its regulatory responsibilities to ensure that the regulated operations of the carriers do not subsidize the nonregulated operations of those same carriers. These reports have been updated to include the OMB control number and expiration date. Copies of the reports may be obtained by contacting Barbara Van Hagen at 202-418-0849.

Public reporting burden for the collections of information is as noted above. Send comments regarding the burden estimate or any other aspect of the collections of information, including suggestions for reducing the burden to the Records Management Branch, Washington, D.C. 20554.
