BILLING CODE 5000-04-M

**Defense Science Board Task Force Advanced Modeling and Simulation for Analyzing Combat Concepts in the 21st Century**

**ACTION:** Notice of advisory committee meetings.

**SUMMARY:** The Defense Science Board Task Force on Advanced Modeling and Simulation for Analyzing Combat Concepts in the 21st Century will meet in closed session on April 21-22, 1997 at USACOM, JTASC, 116 Lakeview Parkway, Suffolk, Virginia.

The mission of the Defense Science Board is to advise the Secretary of Defense through the Under Secretary of Defense for Acquisition and Technology on scientific and technical matters as they affect the perceived needs of the Department of Defense. At this meeting the Task Force will address modeling and simulation capabilities required for analyzing concepts for 21st century military combat operations. These capabilities should encompass the breadth of warfare from strategic to individuals fighting afoot for all phases of military operations (Air, Land, Sea, Information, Communications).

In accordance with Section 10(d) of the Federal Advisory Committee Act, P.L. No. 92-463, as amended (5 U.S.C. App. II, (1994)), it has been determined that this DSB Task Force meeting concerns matters listed in 5 U.S.C. § 552b(c) (1) (1994), and that accordingly this meeting will be closed to the public.

Dated: April 1, 1997.

BILLING CODE 5000-4-M

**Department of the Army**

**Final Environmental Impact Statement (FEIS) for the Relocation of the U.S. Army Military Police School and the U.S. Army Chemical School to Fort Leonard Wood, Missouri**

**AGENCY:** Department of the Army, DoD.

**ACTION:** Notice of availability.

**SUMMARY:** In compliance with the National Environmental Policy Act of 1969 (NEPA) and the President's Council on Environmental Quality (CEQ), the Army has prepared an FEIS for the directed relocation of the U.S. Army Chemical School and U.S. Army Military Police School from Fort McClellan, Alabama, to Fort Leonard Wood, Missouri. The relocation is part of the approved 1995 Base Closure and Realignment actions mandated by the Base Closure and Realignment Act of 1990 (Pub. L. 101-510), and subsequent actions in compliance with this law. Therefore, the FEIS focuses on alternative methods of implementing these BRAC actions at Fort Leonard Wood. The FEIS describes the proposed action which involves the relocation of military mission activities, construction of support facilities, and relocation of personnel to Fort Leonard Wood.

Alternatives considered for realignment of the BRAC training missions include the: No. Action Alternative; Relocate Current Practice (RCP) Alternative; Optimum Training Method (OPTM) Alternative; and the Environmentally Preferred Training Method (EPTM) Alternative. Alternatives considered for providing required support facilities include the No Action Alternative, and three land use and facility siting implementation alternatives. The final element of the planned action, realignment of associated personnel, is considered in the context of a: No Action Alternative; and Total Early, Total Late, and Phased Move Alternatives. The Army has

identified their Preferred Action in the FEIS which includes implementation of the OPTM Alternative for realigning training missions, the Combined Headquarters and Instruction Land Use and Facility Plan Alternative to provide required support facilities, and the Phased Move Alternative to relocate personnel from Fort McClellan.

Based on the analysis included in this FEIS, adverse impacts that would occur as a result of implementing the Army's proposed BRAC actions at Fort Leonard Wood include: A reduction of air quality as a result of fog oil obscuring training; training activities and tree clearing that result in a "may effect" finding to Federally listed threatened and endangered species; the potential for loss of soil resources and accelerated erosion resulting from BRAC construction projects; the release of unburned fuel that could impact soil and water resources at the expedient flame range; and human health risks for trainers and military students involved with obscure training. Beneficial impacts include increased operational efficiency and training effectiveness associated with the collocation of the Engineer School, the Military Police School and the Chemical School; short-term economic gains associated with BRAC construction activities; and long-term economic gains associated with the transfer of the Chemical School and Military Police School missions to Fort Leonard Wood.

**FEIS Distribution and Waiting Period**

Copies of the FEIS have been forwarded to Federal, State and local agencies; organizations; and individuals who provided substantive comments on the Draft EIS, or who previously requested a copy of the FEIS. These copies were distributed prior to, or simultaneously with, the filing of this Notice of Availability for the FEIS with the U.S. Environmental Protection Agency. Copies of the FEIS are available for review at the following public and other libraries: Kinderhook Regional Library, Lebanon, Missouri; Kinderhook Regional Library, Waynesville, Missouri; Rolla Public Library, Rolla, Missouri; Kansas City Public Library, Kansas City, Missouri; St. Louis County Library, Main Branch, St. Louis, Missouri; Clarke Engineer School Library, Fort Leonard Wood, Missouri; Texas County Library, Houston, Missouri; Daniel Boone Regional Library, Columbia, Missouri; Missouri River Regional Library, Jefferson City, Missouri; Springfield-Greene County Library, Springfield, Missouri; and Fisher Library, Fort McClellan, Alabama. Following a 30-day post-filing
