SUPPLEMENTARY INFORMATION: On November 13, 1996, COOK OB/GYN®, Spencer, IN 47460, submitted to CDRH an application for an HDE for the Harrison Fetal Bladder Stent Set (Lowery Modification). The device is a fetal bladder stent and is indicated for fetal urinary tract decompression following the diagnosis of fetal postvesicular obstructive uropathy in fetuses 18 to 32 weeks gestational age.

In accordance with 21 CFR 814.116(a), this HDE was not referred to the Obstetrics and Gynecology Devices Panel, an FDA advisory committee, for review and recommendation because the information in the HDE substantially duplicates information previously reviewed by this panel.

On February 14, 1997, CDRH approved the application by a letter to the applicant from the Director of the Office of Device Evaluation, CDRH.

A summary of the safety and probable benefit upon which CDRH based its approval is on file in the Dockets Management Branch (address above) and is available from the office upon written request. Requests should be

identified with the name of the device and the docket number found in brackets in the heading of this document.

Opportunity for Administrative Review

Section 515 (d)(3) of the act (21 U.S.C. 360e(d)(3)) authorizes any interested person to petition, under section 515(g) of the act, for administrative review of CDRH's decision to approve this application. A petitioner may request either a formal hearing under 21 CFR part 12 of FDA's administrative practices and procedures regulations or a review of the application and CDRH's action by an independent advisory committee of experts. A petition is to be in the form of a petition for reconsideration under 21 CFR 10.33(b). A petitioner shall identify the form of review requested (hearing or independent advisory committee) and shall submit with the petition supporting data and information showing that there is a genuine and substantial issue of material fact for resolution through administrative review. After reviewing the petition, FDA will decide whether to grant or deny the petition and will publish a notice of its decision in the **Federal Register**. If FDA grants the petition, the notice will state the issue(s) to be reviewed, the form of review to be used, the persons who may participate in the review, the time and place where the review will occur, and other details.

Petitioners may, at any time on or before May 7, 1997, file with the Dockets Management Branch (address above) two copies of each petition and supporting data and information, identified with the name of the device and the docket number found in brackets in the heading of this document. Received petitioners may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

This notice is issued under section 520(h) of the act (21 U.S.C. 360j(h)), 21 CFR 814.116(b), and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10) and redelegated to the Director, Center for Devices and Radiological Health (21 CFR 5.53).
