**SUPPLEMENTARY INFORMATION:****I. Abstract**

The Census Bureau plans to request clearance for the collection of data concerning the School Enrollment Supplement to be conducted in conjunction with the October 1997 CPS. The Bureau of the Census and the Bureau of Labor Statistics (BLS) sponsor the basic annual school enrollment questions, which have been collected annually in the CPS for over 25 years. The National Center for Education Statistics (NCES) sponsors the inclusion of the additional questions on summer school enrollment.

This survey provides information on public/private elementary and secondary school enrollment, and characteristics of private school students and their families, which is used for tracking historical trends and for policy planning and support. This year we will also ask questions about computer usage. The last time we asked questions about computer usage during the October supplement was 1993. The questions are modified from those asked in October 1993. This survey is the only source of national data on the age distribution and family characteristics

of college students, and the only source of demographic data on preprimary school enrollment. As part of the Federal Government's efforts to collect data and provide timely information to local governments for policymaking decisions, the survey provides national trends in enrollment and progress in school.

**II. Method of Collection**
