Congress, state and local governments, and Federal agencies that administer social welfare and transfer payment programs such as the Department of Health and Human Services, the Department of Housing and Urban Development, and the Department of Agriculture.

The SIPP is a longitudinal survey, in that households in the panel are interviewed 12 times at 4 month intervals or waves over the life of the panel, making the duration of the panel about 4 years. The next panel of households will be introduced in the year 2000.

The survey is molded around a central core of labor force and income questions, health insurance questions, and questions concerning government program participation that remain fixed throughout the life of a panel. The core questions are asked at Wave 1 and are updated during subsequent interviews. The core is supplemented with additional questions or topical modules designed to answer specific needs.

This request is for clearance of the topical modules to be asked during Wave 5 of the 1996 Panel. The core questions have already been cleared. Topical modules for waves 6 through 12 will be cleared later. The topical modules for Wave 5 are: (1) School Enrollment and Financing, (2) Child Support Agreements, (3) Support for Non-Household Members, (4) Functional Limitations and Disability—Adults, (5) Functional Limitations and Disability—Children, and (6) Employer Provided Health Benefits.
