

theft prevention program. It is not intended to preempt existing State or local laws or programs.

### Application Requirements

#### Implementation Grants

##### Problem Statement

States wishing to apply shall provide an assessment of the auto theft problem in their jurisdiction and what efforts have been undertaken to address it. Applicants should contrast the severity of their auto theft problem to other States and discern the patterns and trends of auto theft. States should also identify what steps have been taken to decrease auto theft. For instance, does the State have an automobile theft prevention authority and what types of initiatives does it support to combat auto theft.

##### Goals and Objectives

The applicant must provide goals, objectives, and methods of implementation for the project that are consistent with the program announcement. Objectives should be clear, measurable, attainable, and focused on the methods used to conduct the project. Favorable consideration will be given to those applicants who merge their auto theft enforcement efforts and their prevention initiatives into a coherent strategy and establish goals and objectives based upon the anticipated collective outcome of both approaches.

##### Project Strategy or Design

The project strategy or design should describe the Watch Your Car program the State wishes to implement including its size and scope; outreach efforts to educate the public; statewide training programs to inform municipal, county and state law enforcement officers of the program; a description of the database if the State wishes to maintain a centralized computer registry; the production and dissemination of universal consent forms authorizing traffic stops by any local, State, or Federal law enforcement officer pursuant to the stipulated program condition(s); and efforts to be undertaken to enlist both public and private organizations such as auto dealers, auto insurance companies, and other major retail businesses willing to host registration programs and encourage employee participation.

For those applicants who currently have an existing statewide program that is available to less than 50 percent of the State's residents, document the municipalities and counties where the program is currently available and

demonstrate that the remaining municipalities and counties serve as the domicile for 50 percent or more of the State's total residents.

##### Implementation Plan

Applicant should provide an implementation plan for the program outlined above. It should include a schedule to include milestones for significant tasks in a chart form.

##### Additional Resource Commitments

Applicants are encouraged to leverage other resources—State, local, or private—in support of this project.

##### Project Management Structure

The applicant should describe how the project will be structured, organized, and managed. It should identify and describe the qualifications and experience of the project director and project staff, how they will be selected, and their roles and responsibilities.

##### Organizational Capability

The applicant should describe the organizational experience, both programmatic and financial, that qualifies it to manage the project.

##### Program Evaluation

The program evaluation should indicate how the applicant will assess the success of project implementation and the extent to which the strategy achieved the project's goals and objectives.

##### Conversion Grants

Applicants applying for conversion grants should address the criteria cited in paragraphs: Project Strategy or Design; Implementation Plan; Project Management Structure; and Program Evaluation.
