This Notice also lists the following information:

*Title of proposal:* Canvass of Moving to Opportunity Families.

*Description of the need for the information and proposed use:* The information is being collected to determine locating information for households that participate in Moving to Opportunity (MTO) and for household members who have left the participating household. It is also being collected to determine changes in employment, education, and receipt of benefits for these households.

This is being done to assist the Department in providing congressionally mandated reports on the long term effects of providing assistance to low-income families living in assisted housing to move out of the high poverty areas of central cities.

*Members of affected public:* Participants in the Moving to Opportunity Demonstration will be surveyed. We estimate that 2900 heads of MTO families, and an additional 100 household members who have left the participating households (or their responsible adults in the case of minor children) will be individually surveyed in 1997. In 1998, 4178 heads of MTO families, and an additional 200 household members who have left the participating households (or adults responsible for minor children) will be individually surveyed.

*Estimation of the total number of hours needed to prepare the information collection including number of respondents, frequency of response, and hours of response:* Information will be collected for approximately 3000 respondents in 1997, and 4378 respondents in 1998. In 1997, the long form, a 15 minute telephone survey, is planned to be administered to 1979 household heads. The short form, a 10 minute telephone survey, will be administered to the remaining 1021 participants (921 heads of household, and 100 adults, emancipated minors, and adults responsible for minors who have left the household). In 1998, the long form will be administered to 1,979 heads of household, and the short form to an additional 2,399 participants (2199

heads of the household, and 200 additional members or responsible adults). A 70% response rate is expected for the heads of household. The survey will be conducted annually. The information being requested is information normally known to the participant or responsible adult. The total annual burden for respondents is estimated at 472 hours in 1997 and 637 hours in 1998.

*Status of the proposed information collection:* Pending OMB approval.

**Authority:** Section 3506 of the Paperwork Reduction Act of 1995, 44 U.S.C. Chapter 35, as amended.

Dated: April 3, 1997.
