

comments we receive, we will make any necessary adjustments for our submission to OMB. In calculating the burden, MMS may have assumed that respondents perform many of the requirements and maintain records in the normal course of their activities. MMS considers these to be usual and customary. Commenters are invited to provide information if they disagree with this assumption and they should tell us what the burden hours and costs imposed by this collection of information are.

(1) The MMS specifically solicits comments on the following questions:

(a) Is the proposed collection of information necessary for the proper performance of MMS's functions, and will it be useful?

(b) Are the estimates of the burden hours of the proposed collection reasonable?

(c) Do you have any suggestions that would enhance the quality, clarity, or usefulness of the information to be collected?

(d) Is there a way to minimize the information collection burden on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other forms of information technology?

(2) In addition, the PRA requires agencies to estimate the total annual cost burden to respondents or recordkeepers resulting from the collection of information. The MMS needs your comments on this item. Your response should split the cost estimate into two components:

(a) Total capital and startup cost component and

(b) Annual operation, maintenance; and purchase of services component.

Your estimates should consider the costs to generate, maintain, and disclose or provide the information. You should describe the methods you use to estimate major cost factors, including system and technology acquisition, expected useful life of capital equipment, discount rate(s), and the period over which you incur costs. Capital and startup costs include, among other items, computers and software you purchase to prepare for collecting information; monitoring, sampling, drilling, and testing equipment; and record storage facilities. Generally, your estimates should not include equipment or services purchased: (1) Before October 1, 1995; (2) to comply with requirements not associated with the information collection; (3) for reasons other than to provide information or keep records for the Government; or (4) as part of

customary and usual business or private practices.
