**FMC Corporation; Approval of a Pesticide Product Registration**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** This notice announces Agency approval of applications submitted by FMC Corporation, to conditionally register the pesticide products Sulfentrazone Technical, Authority 4F, Authority 75DF, Authority BL, and Authority Broadleaf containing new active ingredients not included in any previously registered products pursuant to the provisions of section 3(c)(7)(C) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended.

**FOR FURTHER INFORMATION CONTACT:** By mail: Joanne Miller, Product Manager (PM) 23, Registration Division (7505C), Office of Pesticide Programs, 401 M St., SW., Washington, DC 20460. Office location and telephone number: Rm. 237, CM #2, Environmental Protection Agency, 1921 Jefferson Davis Hwy, Arlington, VA 22202, 703-305-6224; e-mail: miller.joanne@epamail.epa.gov.

**SUPPLEMENTARY INFORMATION:**

**Electronic Availability:** Electronic copies of this document and the Fact Sheet are available from the EPA home page at the Environmental Sub-Set entry for this document under "Regulations" (<http://www.epa.gov/fedrgstr/>).

EPA issued a notice, published in the **Federal Register** of March 8, 1995 (60 FR 12765; FRL-4937-2), which announced that FMC Corp., 1735 Market St., Philadelphia, PA 19103, had submitted applications to register the pesticide products Sulfentrazone Technical, Sulfentrazone 4F, and Sulfentrazone 75DF (EPA File Symbols 279-GRUO, 279-GRUA, and 279-GRUI), containing the active ingredient sulfentrazone, *N*-[2,4-dichloro-5-[4-(difluoromethyl)-4,5-dihydro-3-methyl-5-oxo-1*H*-1,2,4-triazol-1-yl]phenyl]methanesulfonamide(methyl at 92.2, 39.6, and 75 percent respectively, active ingredients not included in any previously registered products.

EPA subsequently received applications from FMC Corp., to conditionally register the pesticide products Authority BL (File Symbol 279-GRTO) containing the active ingredients sulfentrazone *N*-[2,4-dichloro-5-[4-(difluoromethyl)-4,5-dihydro-3-methyl-5-oxo-1*H*-1,2,4-triazol-1-yl]phenyl]methanesulfonamide 47% and metribuzin 4-amino-6-(1,1-dimethylethyl)-3-(methylthio)-1,2,4-triazin-5(4*H*)-one 28.% and Authority Broadleaf (File Symbol 279-GRTL), containing the active ingredients sulfentrazone 46.9% and chlorimuron ethyl ethyl 2-[[[(4-chloro-6-methoxy-pyrimidin-2-yl)amino]carbonyl]amino]sulfonyl]benzoate 9.4%. However, since the notice of receipt of application did not publish in **Federal Register**, as required by FIFRA, as amended, interested parties may submit written comments within 30 days from the date of publication of this notice. Comments and data may also be submitted electronically by sending electronic mail; e-mail: [opp-docket@epamail.epa.gov](mailto:opp-docket@epamail.epa.gov). No Confidential Business Information (CBI) should be submitted through e-mail. More detailed information is found in all documents requesting comments as of May 1995.

The applications were approved on February 27, 1997, for one technical and four end-use products listed below:

1. Sulfentrazone Technical for manufacturing use only (EPA Registration Number 279-3149).
2. Authority 4F (formerly Sulfentrazone 4F) for preemergence and preplant incorporated weed control in soybeans (EPA Registration Number 279-3146).

3. Authority 75DF (formerly Sulfentrazone 75DF for preemergence and preplant incorporated weed control in soybeans (EPA Registration Number 279-3148)

4. Authority BL for use on soybeans in preemergence, preplant incorporated, no-till, and minimum till applications (EPA Registration Number 279-3175)

5. Authority Broadleaf for use on soybeans in preemergence, preplant incorporated, no-till, and minimum till applications (EPA Registration Number 279-3179).

A conditional registration may be granted under section 3(c)(7)(C) of FIFRA for a new active ingredient where certain data are lacking, on condition that such data are received by the end of the conditional registration period and do not meet or exceed the risk criteria set forth in 40 CFR 154.7; that use of the pesticide during the conditional registration period will not cause unreasonable adverse effects; and that use of the pesticide is in the public interest.

The Agency has considered the available data on the risks associated with the proposed use of sulfentrazone, metribuzin, and chlorimuron ethyl ethyl 2-[[[(4-chloro-6-methoxy-pyrimidin-2-yl)amino]carbonyl]amino]sulfonyl]benzoate, and information on social, economic, and environmental benefits to be derived from such use. Specifically, the Agency has considered the nature and its pattern of use, application methods and rates, and level and extent of potential exposure. Based on these reviews, the Agency was able to make basic health and safety determinations which show that use of sulfentrazone, metribuzin, and chlorimuron ethyl ethyl 2-[[[(4-chloro-6-methoxy-pyrimidin-2-yl)amino]carbonyl]amino]sulfonyl]benzoate during the period of conditional registration will not cause any unreasonable adverse effect on the environment, and that use of the pesticide is, in the public interest.

These products are conditionally registered in accordance with FIFRA section 3(c)(7)(C). If the conditions are not complied with the registrations will be subject to cancellation in accordance with FIFRA section 6(e).

Consistent with section 3(c)(7)(C), the Agency has determined that these conditional registrations are in the public interest. Use of the pesticides are of significance to the user community, and appropriate labeling, use directions, and other measures have been taken to ensure that use of the pesticides will not result in unreasonable adverse effects to man and the environment.

More detailed information on these conditional registrations is contained in an EPA Pesticide Fact Sheet on sulfentrazone, metribuzin, and chlorimuron ethyl ethyl 2-[[[(4-chloro-6-methoxy-pyrimidin-2-yl)amino]carbonyl]amino]sulfonyl]benzoate.

A copy of the fact sheet, which provides a summary description of the chemical, use patterns and formulations, science findings, and the Agency's regulatory position and rationale, may be obtained from the National Technical Information Service (NTIS), 5285 Port Royal Road, Springfield, VA 22161.

In accordance with section 3(c)(2) of FIFRA, a copy of the approved label, the list of data references, the data and other scientific information used to support registration, except for material specifically protected by section 10 of FIFRA, are available for public inspection in the Public Response and Program Resources Branch, Field Operations Division (7506C), Office of Pesticide Programs, Environmental Protection Agency, Rm. 1132, CM #2, Arlington, VA 22202 (703-305-5805). Requests for data must be made in accordance with the provisions of the Freedom of Information Act and must be addressed to the Freedom of Information Office (A-101), 401 M St., SW., Washington, D.C. 20460. Such requests should: (1) Identify the product name and registration number and (2) specify the data or information desired.
