Approval and Promulgation of Implementation Plans; Ohio

AGENCY: Environmental Protection Agency (USEPA).

ACTION: Proposed rule.

SUMMARY: On November 12, 1996, USEPA received a State Implementation Plan (SIP) revision request from the Ohio Environmental Protection Agency (Ohio EPA). This revision request was in the form of an amendment to the Ohio Administrative Code (OAC) which added an additional exemption from organic compound emission controls for qualifying new sources. In this action, USEPA is proposing to approve the State's SIP revision request. In the final rules section of this **Federal Register**, the USEPA is approving this action as a direct final rule without prior proposal because USEPA views this as a noncontroversial action and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse

comments are received in response to that direct final rule, no further activity is contemplated in relation to this proposed rule. If USEPA receives substantive adverse comments not previously addressed by the State or USEPA, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on the proposed rule. USEPA will not institute a second comment period on this action. Any parties interested in commenting on this document should do so at this time.
