

4. Section 1.49 is amended by revising paragraph (a) and adding new paragraph (f) to read as follows:

§ 1.49 Specifications as to pleadings and documents.

(a) All pleadings and documents filed in paper form in any Commission proceeding shall be typewritten or prepared by mechanical processing methods, and shall be filed on A4 (21 cm. × 29.7 cm.) or on 8½ × 11 inch (21.6 cm. × 27.9 cm.) paper with the margins set so that the printed material does not exceed 6½ × 9½ inches (16.5 cm. × 24.1 cm.). The printed material may be in any typeface of at least 12-point (0.42333 cm. or 12/72") in height. The body of the text must be double spaced with a minimum distance of 7/32 of an inch (0.5556 cm.) between each line of text. Footnotes and long, indented quotations may be single spaced, but must be in type that is 12-point or larger in height, with at least 1/16 of an inch (0.158 cm.) between each line of text. Counsel are cautioned against employing extended single spaced passages or excessive footnotes to evade prescribed pleading lengths. If single-spaced passages or footnotes are used in this manner the pleading will, at the discretion of the Commission, either be rejected as unacceptable for filing or dismissed with leave to be refiled in proper form. Pleadings may be printed on both sides of the paper. Pleadings that use only one side of the paper shall be stapled, or otherwise bound, in the upper left-hand corner; those using both sides of the paper shall be stapled twice, or otherwise bound, along the left-hand margin so that it opens like a book. The foregoing shall not apply to printed briefs specifically requested by the Commission, documents filed in electronic form, official publications, charted or maps, original documents (or admissible copies thereof) offered as exhibits, specially prepared exhibits, or if otherwise specifically provided. All copies shall be clearly legible.

(f) Comments, reply comments, and other documents filed before the close of the reply comment period, may be filed in electronic form in any rulemaking proceeding other than broadcast allotment proceedings. The Commission may adopt specific requirements for formatting and filing of documents submitted in electronic form. For purposes of paragraphs (b) and (c) of this section, and any prescribed pleading lengths, the length of any comment or reply comment filed in electronic form in a rulemaking proceeding shall be equal to the length of the document if printed out and

formatted according to the specifications of paragraph (a) of this section.

* * * * *

5. Section 1.419 is amended by adding new paragraphs (d) and (e) to read as follows:

§ 1.419 Form of comments and replies; number of copies.

* * * * *

(d) Participants that file comments and replies in electronic form need only submit one copy of those comments, so long as the submission conforms to any procedural or filing requirements established for formal electronic comments.

(e) Comments and replies filed in electronic form by a party represented by an attorney shall include the name, street address, and telephone number of at least one attorney of record. Parties not represented by an attorney that file comments and replies in electronic form shall provide their name, street address, and telephone number.

Public Meeting To Discuss the Development of the North American Standard for Protection Against Shifting or Falling Cargo

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of meeting.

SUMMARY: The FHWA is announcing a public meeting concerning the development of the North American Cargo Securement Standard. The meeting will include presentations of the results of recently completed research and a discussion of a draft version of the North American Standard for Protection Against Shifting or Falling Cargo.

DATES: The meeting will be held on May 3, 1997. It will begin at 9:00 a.m. and end at 5:00 p.m.

ADDRESSES: The meeting will be held at the Wyndham Greenspoint Hotel, 12400 Greenspoint Drive, Houston, Texas.

FOR FURTHER INFORMATION CONTACT: Mr. Larry W. Minor, Office of Motor Carrier

Research and Standards, HCS-10, (202) 366-4009; or Mr. Charles E. Medalen, Office of the Chief Counsel, HCC-20, (202) 366-1354, Federal Highway Administration, 400 Seventh Street, SW., Washington, D. C. 20590. Office hours are from 7:45 a.m. to 4:15 p.m., e.t., Monday through Friday, except Federal holidays.

SUPPLEMENTARY INFORMATION:

Background

On October 17, 1996, the FHWA published an advance notice of proposed rulemaking (ANPRM) concerning the development of the North American Standard for Protection Against Shifting or Falling Cargo (61 FR 54142). The ANPRM indicated that the FHWA is considering proposing amendments to its regulations concerning cargo securement requirements for commercial motor vehicles engaged in interstate commerce. Specifically, the agency is considering adopting new cargo securement guidelines that will be based upon the results of a multi-year comprehensive research program to evaluate current regulations and industry practices. The FHWA requested comments on the process to be used in developing the cargo securement guidelines.

Standard Development Process

The preliminary efforts at developing the North American Cargo Securement Standard are currently being managed by a drafting group. The drafting group is developing a model set of cargo securement guidelines based upon the results from the multi-year research program. Membership in the drafting group includes representatives from the FHWA, Transport Canada, Canadian Council of Motor Transport Administrators (CCMTA), the Ontario Ministry of Transportation, Quebec Ministry of Transportation—Ontario and Quebec are conducting most of the research—and the Commercial Vehicle Safety Alliance (CVSA).

The meeting on May 3 is intended to serve as part of a process for further developing the guidelines and will involve a review of the work completed to date by the drafting group. The meeting is open to all interested parties. This process is intended to ensure that all interested parties have an opportunity to participate in the development of the guidelines, and to identify and consider the concerns of the Federal, State, and Provincial governments, carriers, shippers, industry groups, and associations as

well as safety advocacy groups and the general public.

For individuals and groups unable to attend the meeting, the FHWA will publish the draft standard in the **Federal Register**. Further, the CCMTA has posted information on the INTERNET. The website is: <http://www.ab.org/ccmta/ccmta.html>.

With regard to future rulemaking notices, the FHWA will publish a separate notice concerning its review of the docket comments sent in response to the ANPRM. That notice will summarize the comments and identify any issues that warrant reconsideration of the standard development process.

Meeting Information

The meeting will be held on May 3, 1997, at the Wyndham Greenspoint Hotel, 12400 Greenspoint Drive, Houston, Texas. The meeting is scheduled from 9:00 a.m. to 5:00 p.m. and is part of the Commercial Vehicle Safety Alliance's 1997 Spring Workshop. Attendance for the cargo securement meeting is free of charge and open to all interested parties. However, anyone interested in attending any other session or committee meeting of the CVSA's Spring Workshop must register with the CVSA and pay the appropriate registration fee. For further information about registration for other sessions or meetings of the CVSA's Spring Workshop please contact the CVSA at (301) 564-1623.

The FHWA notes that since the CVSA's 1997 Spring Workshop is being held at the Wyndham Greenspoint Hotel, the availability of guest rooms at the hotel is very unlikely. Therefore, those needing hotel accommodations may need to make reservations at other hotels in the vicinity.

List of Subjects in 49 CFR Part 393

Highway safety, Motor carriers, Motor vehicle safety.

RIN 2127-AG55

Federal Motor Vehicle Safety Standards; Metric Conversion

AGENCY: National Highway Traffic Safety Administration (NHTSA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This document proposes to revise selected Federal Motor Vehicle Safety Standards (FMVSS) by converting English measurements specified in those standards to metric measurements. This document begins the second phase of several rulemaking actions that NHTSA will undertake to implement the Federal policy that the metric system of measurement is the preferred system of weights and measures for United States trade and commerce. The proposed conversions are not intended to make any changes in the stringency of the affected FMVSS.

DATES: Comments must be received on or before June 20, 1997.

ADDRESSES: All comments should refer to the docket number and notice number in the heading of this notice and be submitted, preferably in ten copies, to: Docket Section, Room 5109, National Highway Traffic Safety Administration, 400 Seventh Street, SW., Washington, DC 20590. Docket hours are 9:30 a.m. to 4 p.m., Monday through Friday.

FOR FURTHER INFORMATION CONTACT: Mr. Kevin Cavey, National Highway Traffic Safety Administration, 400 Seventh Street, SW., Washington, DC 20590. Mr. Cavey's telephone number is: (202) 366-5271.

 - C. Environmental Impacts

D. Federalism
E. Civil Justice Reform
Proposed Regulatory Text

I. Background Information

Section 5164 of the Omnibus Trade and Competitiveness Act (Pub. L. 100-418), makes it United States (U.S.) policy that the metric system of measurement is the preferred system of weights and measures for United States trade and commerce. Through Executive Order 12770, Federal agencies are directed to comply with the Act by adopting a conversion schedule for their programs by September 30, 1992. In a **Federal Register** document of April 21, 1992 (57 FR 14619), the National Highway Traffic Safety Administration (NHTSA) published its plan to use the metric system in NHTSA programs, and included an implementation schedule to convert the Federal Motor Vehicle Safety Standards (FMVSSs) to metric measurements.

Using the plan, in the **Federal Register** of March 15, 1994 (59 FR 11962), the agency published a notice of proposed rulemaking (NPRM) to convert English system measurements in selected FMVSSs to the metric system. In this first round of conversions, the agency selected the following FMVSSs for which conversions were simple, and relatively straightforward: Standard No. 102, *Transmission shift lever sequence, starter interlock, and transmission braking effect*; Standard No. 103, *Windshield defrosting and defogging systems*; Standard No. 104, *Windshield wiping and washing systems*; Standard No. 107, *Reflecting surfaces*; Standard No. 110, *Tire selection and rims*; Standard No. 112, *Headlamp concealment devices*; Standard No. 114, *Theft protection*; Standard No. 115, *Vehicle identification number—basic requirements*; Standard No. 120, *Tire selection and rims for motor vehicles other than passenger cars*; Standard No. 124, *Accelerator control systems*; Standard No. 126, *Truck-camper loading*; Standard No. 205, *Glazing materials*; Standard No. 206, *Door locks and door retention components*; Standard No. 207, *Seating systems*; Standard No. 212, *Windshield mounting*, and Standard No. 216, *Roof crush resistance*.

NHTSA reviewed the public comments in response to the NPRM, and made certain changes recommended by the commenters. In a final rule of March 14, 1995 (60 FR 13639), the agency converted to the metric system, English measurements in the above named Federal Motor Vehicle Safety Standards (49 CFR 571 *et seq.*).
