Title: Second Report and Order, Toll Free Service Access Codes, CC Docket No. 95-155.

Type of Review: New Collection.

Respondents: Business or other for-profit.

Number of Respondents: 168.

Estimate Hour Per Response: 1 hour.

Frequency of Response:

Approximately 15 requests per year per respondent.

Total Annual Burden: 2,250 hours.

Needs and Uses: RespOrgs requesting that specific toll free numbers be placed in unavailable status will be required to submit written requests, with appropriate documentation, to the toll free database administrator, Database Services Management, Inc. (DSMI). This requirement will hold those RespOrgs more accountable and will decrease abuses of the lag time process. It will

prevent numbers from being held in unavailable status without demonstrated reasons, and will make more numbers available for subscribers who need and want them. DSMI (and, if necessary, the Common Carrier Bureau) will continue to use the information collected to determine if a particular toll free number appropriately can be placed in "unavailable" status. This will prevent the fraudulent use of toll free numbers.
