Texas Gas requests that the revised tariff sheets become effective June 1, 1997, which corresponds with the effective date of Texas Gas' implementation of the GISB Order No. 587 standards pursuant to Texas Gas Docket No. RP97-183.

Texas Gas states that copies of the tariff sheets are being served upon Texas Gas's jurisdictional customers and interested state commissions.

Texas Gas Transmission Corporation; Notice of Filing of Tariff Sheets

April 22, 1997.

Take notice that on April 17, 1997, Texas Gas Transmission Corporation (Texas Gas) tendered for filing, as part of its FERC Gas Tariff, First Revised Volume No. 1, the tariff sheets listed on Appendix A to the filing, with an effective date of June 1, 1997.

Texas Gas states that the instant filing is being made pursuant to Section 4 of the Natural Gas Act to incorporate into its tariff a new pro forma Electronic Data Interchange (EDI) Trading Partner

Agreement. Such agreement will help facilitate compliance with the GISB electronic communication requirements. Texas Gas requests that the revised tariff sheets become effective June 1, 1997, which corresponds with the effective date of Texas Gas' implementation of the GISB Order No. 587 standards pursuant to Texas Gas Docket No. RP97-183.

In the instant filing, Texas Gas also requests a three-month waiver from June 1 to September 1, 1997, to fully complete its EDI electronic delivery mechanism strategy. The waiver request applies solely to use of the Internet electronic delivery mechanism for EDI and the granting of such waiver will not have a significant effect on its customers. Texas Gas otherwise anticipates being in full compliance with Order No. 587 and the effective GISB standards on June 1, 1997.

Texas Gas states that copies of the tariff sheets are being served upon Texas Gas' jurisdictional customers and interested state commissions, and all parties on the official service list in Docket No. RP97-183.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, DC 20426, in accordance with Sections 385.211 and 385.214 of the Commission's Rules and Regulations.
