#### Ozark Gas Transmission System; Notice of Proposed Changes in FERC Gas Tariff

May 5, 1997.

Take notice that on May 1, 1997, Ozark Gas Transmission System (Ozark) tendered for filing as part of its FERC Gas Tariff, First Revised Volume No. 1, the tariff sheets listed on Appendix A to the filing, to become effective June 1, 1997.

Ozark states that the enclosed tariff sheets are intended to implement a pooling and a title transfer service, both at no charge.

Although Ozark set forth a pooling proposal in its initial GISB compliance filing in Docket No. RP97-179, the Commission's March 5, 1997, order required Ozark to make a separate Section 4 filing to implement its pooling service. Ozark has had a customer request pooling service, and, as pooling service includes the transfer of title, the customer also requested that Ozark

provide for title transfer service. Thus, Ozark has included in this compliance filing both a pooling and title transfer service.

Ozark states that copies of this filing are being served on all jurisdictional customers and applicable state regulatory agencies.

Any person desiring to be heard or to protest this filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Sections 385.214 and 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed in accordance with Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.
