Type of Request: Extension to a currently approved information collection.

OMB Control Number: 2132-0556.

Abstract: The Omnibus

Transportation Employee Testing Act of 1991 (Pub. L. 102-143, October 28, 1991, now codified in relevant part 49 U.S.C. 5331) requires any recipient of Federal financial assistance under 49 U.S.C. Sections 5309, 5307 or 5311 or under 23 USC Section 103(e)(4) to establish a program designed to help prevent accidents and injuries resulting from safety-sensitive functions. FT's regulation, 49 CFR part 653, "Prevention of Prohibited Drug Use in Transit Operations," effective March 17, 1994, requires recipients to submit to FTA annual reports containing data which summarize information concerning the recipients' drug testing program, such as the number and type of tests given, number of positive test results, and the kinds of safety-sensitive functions the employees perform. FTA uses these data to ensure compliance with the rule, to assess the misuse of drugs in the transit industry, and to set the random testing rate. The data will also be used to assess the effectiveness of the rule in reducing the misuse of drugs among safety-sensitive transit employees and making transit safer for the public.

Estimated Annual Burden: The annual estimated burden is 39,569 hours.

ADDRESSES: Send comments to the Office of Information and Regulatory Affairs, Office of Management and Budget, 725-17th Street, NW., Washington, DC 20503, Attention FTA Desk Officer.
