[Project No. 2696-004]

Niagara Mohawk Power Corporation; Notice of Availability of Environmental Assessment

May 8, 1997.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission's) regulations, 18 CFR part 380 (Order 486, 52 FR 47897), the Commission's Office of Hydropower Licensing has reviewed a license surrender application for the Stuyvesant Falls Project, No. 2696-004. The Stuyvesant Falls Project is located on Kinderhook Creek in Columbia County, New York. The licensee is applying for a surrender of the license due to leaks in the pipelines that are uneconomical to repair for safe and effective operation of the project. An Environmental Assessment (EA) was prepared for the application. The EA finds that approving the application would not constitute a major federal action significantly affecting the quality of the human environment.

Copies of the EA are available for review in the Commission's Reference and Information Center, Room 1C-1, 888 First Street, NE., Washington, DC 20426.

Please submit any comments within 30 days from the date of this notice. Any comments, conclusions, or recommendations that draw upon studies, reports, or other working papers of substance should be supported by appropriate documentation.

Comments should be addressed to Lois D. Cashell, Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426. Please affix Project No. 2696-004 to all comments. For further information, please contact the project manager, Ms. Hillary Berlin, at (202) 219-0038.
