[Docket No. PR97-5-000]

Humble Gas Pipeline Company; Notice of Petition for Rate Approval

May 8, 1997.

Take notice that on February 28, 1997, Humble Gas Pipeline Company

(Humble), filed pursuant to Section 284.123(b)(2) of the Commission's Regulations, a petition for rate approval requesting that the Commission approve as fair and equitable a rate structure with a maximum rate of \$.05327 per MMBtu for all volumes transported upstream of the King Ranch Gas Plant and \$.01528 for all volumes transported through Humble's header downstream of the King Ranch Gas Plant. Additionally, Humble is proposing a system-wide 1.0% retainage for fuel and loss plus a Gas Research Institute (GRI) surcharge (if GRI's current proposal in Docket No. RP97-149-000 is approved by FERC) for transportation service performed under section 311(a)(2) of the Natural Gas Policy Act of 1978 (NGPA).

Humble affirms that it is an intrastate pipeline within the meaning of section 2(16) of the NGPA. It owns and operates an intrastate pipeline system which is located entirely within the state of Texas and is comprised of 276 miles of pipe located in south Texas in the vicinity of Kingsville, Texas. Humble proposes to make its new section 311 rate structure effective as of March 1, 1997.

Pursuant to Section 284.123(b)(2)(ii), if the Commission does not act within 150 days of the filing date, the rate will be deemed to be fair and equitable and not in excess of an amount which interstate pipelines would be permitted to charge for similar transportation service. The Commission may, prior to the expiration of the 150-day period, extend the time for action or institute a proceeding to afford parties an opportunity for written comments and for the oral presentation of views, data, and arguments.

Any person desiring to participate in this rate proceeding must file a motion to intervene in accordance with Sections 385.211 and 385.214 of the Commission's Rules of Practice and Procedures. All motions must be filed with the Secretary of the Commission on or before May 23, 1997. The petition for rate approval is on file with the Commission and is available for public inspection.
