SUPPLEMENTARY INFORMATION: The decision to implement this action is being based on an evaluation of the probable impact of the proposed activities on the public interest. The decision will reflect the national concern for both protection and utilization of important resources. The benefits that reasonably may be expected to accrue from the proposed project are being balanced against its reasonably foreseeable detriments. All factors that may be relevant to the proposal, including the cumulative effects thereof, are being considered; among these factors are economics, aesthetics, general environmental concerns, wetlands, cultural values, flood hazards, fish and wildlife values, flood plain values, land use, recreation, water supply and conservation, water quality, energy needs, safety, food and fiber production, and the general needs and welfare of the people.

The DEIS describes the impacts of the proposed project on environmental and cultural resources in the study area. The DEIS also applies guidelines issued by the Environmental Protection Agency, under authority of the Clean Water Act of 1977 (P.L. 95-217). An evaluation of the proposed actions on the waters of the United States was performed pursuant to the guidelines of the Administrator, U.S. Environmental Protection Agency, under authority of Section 404 of the Clean Water Act. The proposed dredging, construction, and placement of dredged material is in compliance with Section 404(b)(1) guidelines.

In accordance with the National Environmental Policy Act and the Clean Water Act, the Corps of Engineers is soliciting comments from the public and from Federal, state, and local agencies and officials, as well as other interested parties. Any comments received will be considered by the Corps of Engineers in the decision to implement the project. To make this decision, comments are considered to assess impacts on endangered species, historic properties, water quality, general environmental effects, and other public interest factors listed above. Comments regarding the

proposed project will be incorporated into the Final Environmental Impact Statement as required by NEPA. Public comments will also be used to determine the overall public interest.

The public review and comment period for the draft feasibility study and DEIS will be for 45 days, from May 16, 1997, to June 30, 1997.

This Notice of Availability is being sent to organizations and individuals known to have an interest in the proposed restoration. Please bring this notice to the attention of any other individuals with an interest in this matter. Copies of the Draft Report and EIS are available for review at the following locations:

Eastern Shore Area Library, 122 So. Division St., Salisbury, MD Worcester County Library, Snow Hill Branch, 207 No. Washington St., Snow Hill, MD
Eastern Shore Public Library, 23610 Front St., Accomac, VA Worcester County Library, Ocean City Branch, 14th St. and Coastal Highway, Ocean City, MD
Enoch Pratt Free Library, 400 Cathedral St., Baltimore, MD Assateague Island National Seashore, Route 611, 7206 National Seashore Lane, Berlin, MD.

Scoping: A public scoping meeting will be held to give individuals and groups the opportunity to comment, orally and/or in writing, on the environmental, social, and economic impacts of the proposed action (recommended plan) as presented in the DEIS. The DEIS findings will be reviewed at the public meeting, and comments regarding the proposed project will be incorporated into the Final Environmental Impact Statement as required by NEPA.

The public meeting will be held on Wednesday, June 4, 1997, at 6:30 p.m. at the Ocean City Elementary School. Written comments received by June 30, 1997 will be incorporated into the Final EIS.

Dr. James F. Johnson,
Chief, Planning Division.
