[Docket No. RP97-215-002]

Williston Basin Interstate Pipeline Company; Notice of Compliance Filing

May 12, 1997.

Take notice that on May 7, 1997, Williston Basin Interstate Pipeline Company (Williston Basin), tendered for filing as part of its FERC Gas Tariff, Second Revised Volume No. 1 the revised tariff sheets to the filing, to become effective February 1, 1997.

Williston Basin states that the revised tariff sheets reflect a revision to its current electric fuel reimbursement provision outlined in Section 38 of its FERC Gas Tariff, Second Revised Volume No. 1. In implementing its newly approved provision, Williston Basin discovered that the conversion factor proposed to be utilized to determine the level of dekatherm quantities of electric power purchased is flawed and consequently will not keep the Company and its shippers whole for the recovery of electric compressor fuel costs. Williston Basin is now proposing to simply utilize the cost of electric power purchased for use in the operation of its compressors as the basis for developing the appropriate reimbursement rates.

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Section 385.211 of the Commission's Rules and Regulations. All such protests must be filed in accordance with Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.
