

informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

1. Type of submission, new, revision, extension: Revision
2. The title of the information collection: Application/Permit for Use of the Two White Flint (TWFN) Auditorium
3. The form number if applicable: NRC Form 590
4. How often the collection is required: Each time public use of the auditorium is requested.
5. Who will be required or asked to report: Member of the public requesting use of the NRC Auditorium.
6. An estimate of the number of annual responses: 5
7. The estimate of the number of annual respondents: 5
8. An estimate of the total number of hours needed annually to complete the requirement or request: 1.25 hours (15 minutes per request).
9. An indication of whether Section 3507(d), Public Law 104-13 applies: N/A.
10. Abstract: In accordance with the Public Buildings Act of 1959, an agreement was reached between the Maryland-National Capital Park and Planning Commission (MPPC), the General Services Administration (GSA) and the Nuclear Regulatory Commission, the NRC auditorium will be made available for public use. Public users of the auditorium will be required to complete NRC Form 590, Application/Permit for Use of Two White Flint North (TWFN) Auditorium. The information is needed to allow for administrative and security review, scheduling, and to make a determination that there are no anticipated problems with the requester prior to utilization of the facility.

A copy of the submittal may be viewed free of charge at the NRC Public Document Room, 2120 L Street, NW, (Lower Level), Washington, DC. Members of the public who are in the Washington, DC, area can access the submittal via modem on the Public Document Room Bulletin Board (NRC's Advanced Copy Document Library), NRC subsystem at FedWorld, 703-321-3339. Members of the public who are located outside of the Washington, DC, area can dial FedWorld, 1-800-303-9672, or use the FedWorld Internet address: fedworld.gov(Telnet). The document will be available on the

bulletin board for 30 days after the signature date of this notice. If assistance is needed in accessing the document, please contact the FedWorld help desk at 703-487-4608. Additional assistance in locating the document is available from the NRC Public Document Room, nationally at 1-800-397-4209, or within the Washington, D.C. Area at 202-634-3273.

Comments and questions should be directed to the OMB reviewer by June 16, 1997: Edward Michlovich, Office of Information and Regulatory Affairs (3150-0181), NEOB-10202, Office of Management and Budget, Washington, DC 20503.

Comments can also be submitted by telephone at (202) 395-3084.

The NRC Clearance Officer is Brenda Jo. Shelton, (301) 415-7233.

Dated at Rockville, Maryland, this 8th day of May, 1997.

For the Nuclear Regulatory Commission.

Arnold E. Levin,

Acting Designated Senior Official for Information Resources Management.

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-293]

Boston Edison Company; Notice of Withdrawal of Application for Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has granted the request of Boston Edison Company (licensee) to withdraw its January 24, 1997, application, as supplemented on February 13 and 27, 1997, for proposed amendment to Facility Operating License No. DPR-35 for the Pilgrim Nuclear Power Station, located in Plymouth County, Massachusetts.

The proposed amendment would have revised the facility Updated Final Safety Analysis Report (UFSAR) pertaining to Reactor Building Response Spectra. The application and supplements requested a revision to the UFSAR to allow an alternative method of deriving seismic inputs for the analysis of piping systems specified in the January 24, 1997, letter.

The Commission had previously issued a Notice of Consideration of Issuance of Amendment published in the **Federal Register** on March 12, 1997 (62 FR 11480). However, by letter dated April 9, 1997, the licensee withdrew the proposed change.

For further details with respect to this action, see the application for amendment dated January 24, 1997, as supplemented on February 13 and 27, 1997, and the licensee's letter dated April 9, 1997, which withdrew the application for license amendment. The above documents are available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC, and at the local public document room located at the Plymouth Public Library, 11 North Street, Plymouth, Massachusetts 02360.

Dated at Rockville, Maryland, this 9th day of May 1997.

For the Nuclear Regulatory Commission.

Alan B. Wang,

Project Manager, Project Directorate I-3, Division of Reactor Projects—I/II.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 40-8903]

Homestake Mining Company

AGENCY: Nuclear Regulatory Commission.

ACTION: Amendment of Source Material License SUA-1471 to change reclamation milestone dates.

SUMMARY: Notice is hereby given that the U.S. Nuclear Regulatory Commission has amended Homestake Mining Company's (HMC's) Source Material License for the Grants Mill site in New Mexico to change reclamation milestone dates. This amendment was requested by HMC letter dated December 18, 1996, and its receipt by NRC was noticed in the **Federal Register** on January 22, 1997.

The license amendment modifies License Condition 36 to change the completion dates for site reclamation milestones. The new dates approved by the NRC extend completion of placement of final radon barrier and placement of the final erosion protection on the Large Tailings Pile (LTP) and the Small Tailings Pile (STP). HMC justifies the delays due to incomplete (less than 90%) settlement of the LTP and the existence of groundwater corrective action evaporation ponds on the STP. Based on the review of HMC's submittal, which indicates reclamation will be completed as expeditiously as practicable, and the fact that the added risk to the public health and safety is not significant, the NRC staff considers HMC's request acceptable.
