

had instituted reasonable procedures to comply with Section 615(a).

Paragraph II requires Bruno's to maintain documents demonstrating its 615(a) compliance for a period of five years from the issuance date of the order and to make the documents available upon request to the FTC for inspection and copying. Paragraph III requires Bruno's to deliver copies of the Order, at least once per year for a period of five years from the date of issuance, to all persons responsible for its compliance. Paragraph IV requires Bruno's to notify the Commission within 30 days of changes in corporate structure for the duration of the order. Paragraph V provides for the filing of a compliance report with the Commission within 60 days of the issuance date of the order. Finally, Paragraph IV contains a sunset provision, which terminates the order 20 years after issuance.

The purpose of this analysis is to facilitate public comment on the proposed consent order. It is not intended to constitute an official interpretation of the agreement and proposed order or to modify in any way their terms.

Background

The Interagency Committee on Medical Records (ICMR) are aware of numerous activities using computer-generated medical forms, many of which are not mirror images of the genuine paper Standard Form. With GSA's approval the ICMR eliminated the requirement that every electronic version of a medical Standard/Optional form be reviewed and granted an exception. The committee proposes to set data standards and require that activities developing computer-generated versions adhere to the required data elements but not necessarily to the image. The ICMR plans to review medical Standard/Optional forms which are commonly used and/or commonly computer-generated. We will identify those data elements which are required, those (if any) which are optional, and the required format (if necessary). Activities may not add data elements that would change the meaning of the form. This would require written approval from the ICMR. Using the process by which overprints are approved for paper Standard/Optional forms, activities may add other data elements to those required by the committee. With this decision, activities at the local or headquarters level should be able to develop electronic versions which meet the committee's requirements.
