

SUPPLEMENTARY INFORMATION: On March 20, 1997, notice was published in the **Federal Register** (62 FR 13367) that the above-named applicant had submitted a request for a scientific research permit to "take" Hawaiian monk seals for purposes of scientific research. The research will be conducted over a 1-year period and will involve the capture, physical restraint, radio tagging, monitoring, and possible recapture (for tag removal) of immature Hawaiian monk seals of either gender, as well as the inadvertent harassment of additional seals of any age and gender during the course of the research activities. The objective of the research is to describe haul-out patterns of juvenile Hawaiian monk seals at Midway Islands. An evaluation will be made of the possible impacts of human disturbance on the seals. The requested permit has been issued under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*), the Regulations Governing the Taking and Importing of Marine Mammals (50 CFR Part 216), the Endangered Species Act (ESA) of 1973, as amended (16 U.S.C. 1531 *et seq.*), and the Regulations Governing the Taking, Importing, and Exporting of Endangered Fish and Wildlife (50 CFR part 222).

Issuance of this permit, as required by the ESA, was based on a finding that such permit: (1) Was applied for in good faith; (2) will not operate to the disadvantage of the endangered species which is the subject of this permit; and (3) is consistent with the purposes and policies set forth in section 2 of the ESA.

Dated: May 8, 1997.

Ann D. Terbush,

Chief, Permits and Documentation Division, Office of Protected Resources, National Marine Fisheries Service.
