**Science Advisory Board; Emergency Notification of Public Advisory Committee Meeting**

June 6, 1997.

Pursuant to the Federal Advisory Committee Act, Public Law 92-463, notice is hereby given that the Integrated Risk Project (IRP) Steering Committee of the Science Advisory Board (SAB) will hold a teleconference meeting on June 6, 1997 from 1:00 p.m. to 3:00 p.m. Eastern Daylight Time. The meeting is open to the public, however teleconference lines are limited. Please call Stephanie Sanzone, Designated Federal Official for the Committee, at (202) 260-6557 if you are interested in participating in the call and to obtain the dial-in number. The purpose of the teleconference meeting is to continue discussion of a conceptual framework for decision-making that utilizes information on risk, risk reduction opportunity, and economic and societal consequences of various risk reduction strategies. The Steering Committee began discussion of the framework at their meeting April 21-23, 1997. The framework is intended to be a unifying theme for the final report from the IRP that illustrates the inter-relationships between the methodologies developed by IRP Subcommittees for assessing and ranking risks to human health and the environment, identifying optimal sets of

risk reduction strategies, and assessing the economic and societal consequences of both risks and risk reduction options.

**Background on the Integrated Risk Project (IRP)**

In a letter dated October 25, 1995, to Dr. Matanoski, Chair of the SAB Executive Committee, Deputy Administrator Fred Hansen charged the SAB to: (a) Develop an updated ranking of the relative risk of different environmental problems based upon explicit scientific criteria; (b) provide an assessment of techniques and criteria that could be used to discriminate among emerging environmental risks and identify those that merit serious, near-term Agency attention; (c) assess the potential for risk reduction and propose alternative technical risk reduction strategies for the environmental problems identified; and (d) identify the uncertainties and data quality issues associated with the relative rankings. The project is being conducted by several SAB panels, working at the direction of an *ad hoc* Steering Committee established by the Executive Committee.

Single copies of Reducing Risk, the report of the previous relative risk ranking effort of the SAB, can be obtained by contacting the SAB's Committee Evaluation and Support Staff (1400), 401 M Street, SW, Washington, DC 20460, telephone (202) 260-8414, or fax (202) 260-1889.

*For Further Information*—Any member of the public wishing further information concerning the meeting or who wishes to submit oral or written comments should contact Stephanie Sanzone, Designated Federal Official for the IRP Steering Committee, Science Advisory Board (1400), U.S. EPA, Washington, DC 20460, phone (202)-260-6557; fax (202)-260-7118; or via Email at:

Sanzone.Stephanie@epamail.epa.gov. Requests for oral comments must be received no later than 4:00 p.m. Eastern Time on June 3, 1997. Copies of the draft meeting agenda can be obtained from Ms. Wanda Fields at (202) 260-8414 or at the above fax number or by Email to Fields.Wanda@epamail.epa.gov.

**Providing Oral or Written Comments at SAB Meetings**
