Minerals Management Service

Deferral of a Request for Consideration of a Competitive Sand and Gravel Lease Sale on the Federal Outer Continental Shelf (OCS) Offshore New Jersey Until Further Notice

AGENCY: Minerals Management Service, Interior.

ACTION: Notice.

SUMMARY: In February 1996, the Minerals Management Service (MMS) received a request for a competitive sand and gravel lease sale on the Federal OCS offshore northern New Jersey. In response, MMS published a Request for Information and Interest (RFIN) on May 21, 1996 (61 FR 25501). The MMS published the RFIN to determine if there was additional interest in the sale by the sand and gravel industry. The MMS also needed additional information to decide whether to proceed to the next steps in the lease sale process. The MMS formally closed the RFIN comment period on November 1, 1996.

The MMS is advised that the applicant is pursuing other sources of sand and gravel and may not be as interested as before in borrow sites on the Federal OCS. Therefore, MMS is deferring any further consideration of the lease sale offshore northern New Jersey until further notice. However, if any interested person has further comments, please contact the person identified below.

National Park Service

Notice of Inventory Completion for Native American Human Remains in the Possession of the Field Museum of Natural History, Chicago, IL

AGENCY: National Park Service.

ACTION: Notice.

Notice is hereby given in accordance with provisions of the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3003(d), of the completion of an inventory of human remains in the possession of the Field Museum of Natural History, Chicago, IL.

A detailed assessment of the human remains was made by Field Museum professional staff in consultation with representatives of the Cayuga Indian Nation.

In 1885, human remains representing one individual was purchased from F.M. Noe, a dealer in Indianapolis, IN by Franz Boas. In 1894, the Field Museum purchased these human remains from Franz Boas. No known individuals were identified. No associated funerary objects are present.

Accession documents state these human remains are the remains of a "Cayuga chief".

Based on the above mentioned information, officials of the Field Museum of Natural History have determined that, pursuant to 43 CFR 10.2 (d)(1), the human remains listed above represent the physical remains of one individual of Native American ancestry. Officials of the Field Museum have also determined that, pursuant to 25 U.S.C. 3001 (2), there is a relationship of shared group identity which can be reasonably traced between these Native American human remains and the Cayuga Indian Nation and the Seneca-Cayuga Tribe of Oklahoma.

This notice has been sent to officials of the Cayuga Indian Nation and the Seneca-Cayuga Tribe of Oklahoma. Representatives of any other Indian tribe that believes itself to be culturally affiliated with these human remains should contact Jonathan Haas, MacArthur Curator of North American Anthropology, Field Museum of Natural History, Roosevelt Road at Lake Shore Dr., Chicago, IL 60605; telephone: (312) 922-9410, ext. 641, before July 2, 1997.
