

Federal Fish and Wildlife License/ Permit Application and Related Reports, Service form number 3-200. In an attempt to make the comment and application process more "user friendly," similar types of permits have been grouped together and numbered. The application to apply for Service permits issued under subchapter B of Title 50 of the Code of Federal Regulations (CFR), will still require completion of the standard 3-200 form. In addition to the permit application, attachments are often necessary to provide additional information required for each specific type of permit and have assigned numbers, e.g., 3-200.2.

The information on the application form will be used by the Service to review permit applications and allow the Service to make decisions, according to criteria established in various Federal wildlife conservation statutes and regulations, on the issuance, suspension, revocation or denial of permits. The frequency of response for the following types of permit applications/licenses is on occasion, and all have been currently assigned OMB Approval Number 1018-0022, unless otherwise noted.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB approval number and the agency informs the potential persons who are to respond to such collections that they are not required to respond to the collection of information unless it displays a currently valid OMB approval number.
