Description: The Ethylene Oxide Standard and its information collection requirements are designed to provide protection for employees from adverse health effects associated with occupational exposure to ethylene oxide (EtO).

The Standard requires employers to monitor employee exposure to EtO and provide notification to employees of their exposure to ethylene oxide. If monitoring indicates exposure above the 8-hour time weight average of one part EtO per million parts of air, or in excess of five parts of EtO per million part of air as averaged over sampling period of 15 minutes, then the employer is required to make available medical exams to employees who are, or may be exposed to EtO at or above the action level (.5 parts per million calculated as an eight time-weight average), without regard to the use of respirators, for at least 30 days a year. Exposure

monitoring and medical records are to be retained for prescribed amounts of time, and under certain circumstances such records may be transferred to the National Institute for Occupational Safety and Health. Employers are also required to communicate the hazards associated with exposure to EtO through signs, labels, material safety data sheets and training.

(These are not toll-free numbers.)

SUPPLEMENTARY INFORMATION: The Department of Labor (DOL or Department) is announcing Job Training Partnership Act (JTPA) allotments for Program Year (PY) 1997 (July 1, 1997-June 30, 1998) for JTPA Titles II-A, II-C, and III, and for the Summer Youth Employment and Training Program in Calendar Year (CY) 1997 for JTPA Title II-B; and, in accord with Section 6(b)(5) of the Wagner-Peyser Act, preliminary planning estimates for public employment service (ES) activities under the Wagner-Peyser Act for PY

1997. The allotments and estimates are based on the appropriations for DOL for Fiscal Year (FY) 1997.

Attached is a listing of the allotments for PY 1997 for programs under JTPA Titles II-A, II-C, and III; allotments for the CY 1997 Summer Youth Employment and Training Program under Title II-B of JTPA; and preliminary planning estimates for public employment service activities under the Wagner-Peyser Act. The PY 1997 allotments for Titles II-A, II-C, and III and the ES preliminary planning estimates, are based on the funds appropriated by the Omnibus Consolidated Appropriations Act of 1997, Public Law 104-208, for FY 1997.

These JTPA allotments will not be updated for subsequent unemployment data. The Employment Service preliminary estimates are based on averages for the most current 12 months ending September 1996 for each State's share of the civilian labor force and unemployment. Final planning estimates will be published in the **Federal Register** based on Calendar Year 1996 unemployment data.

Title II-A Allotments

The Attachment shows the PY 1997 JTPA Title II-A Adult Training Program allotments by State for a total appropriation of \$895,000,000. For all States, Puerto Rico and the District of Columbia, the following data were used in computing the allotments:

- Data for areas of substantial unemployment (ASU) are averages for the 12-month period, July 1995 through June 1996.
- The number of excess unemployment individuals or the ASU excess (depending on which is higher) are averages for this same 12-month period.
- The economically disadvantaged adult data (age 22 to 72, excluding college students and military) are from the 1990 Census.

The allotments for the Insular Areas, including the Freely Associated States, are based on unemployment data from 1990 Census or, if not available, the most recent data available. A 90 percent relative share "hold-harmless" of the PY 1996 Title II-A allotments for these areas and a minimum allotment of \$75,000 were also applied in determining the allotments.

Title II-A funds are to be distributed among designated service delivery areas (SDAs) according to the statutory formula contained in Section 202(b) of JTPA, as amended by Title VII, Miscellaneous Provisions of the JTPA Amendments of 1992. (This Title VII

provides an interim allocation methodology which applies to the PY 1997 allotments). This is the same formula that has been used in previous program years; however, prior to PY 1993 a different definition of "economically disadvantaged" was used.

JTPA Title II-B Allotments

The Attachment shows the CY 1996 JTPA Title II-B Summer Youth Employment and Training Program allotments by State based on the total available appropriation for CY 1997 of \$871,000,000. These funds were obligated as *Fiscal Year 1996* funds, not as Program Year 1996 funds.

The data used for these allotments are the same unemployment data as were used for Title II-A, except that data for the number for economically disadvantaged youth (age 16 to 21, excluding college students and military) from the 1990 Census was used. For the Insular Areas and Native Americans, the allotments are based on the percentage of Title II-B funds each received during the previous summer.

Title II-B funds for the 1997 Summer Program are to be distributed among designated SDAs in accordance with the statutory formula contained in Section 252(b) of JTPA, as amended by Title VII, Miscellaneous Provisions, of the JTPA Amendments of 1992. This Title VII provides an interim allocation methodology which applies to the PY 1996 allotments. The Title II-B formula is the same as for Title II-C. This is the same formula which was used in the previous program year.

JTPA Title II-C Allotments

The Attachment shows the PY 1997 JTPA Title II-C Youth Training Program allotments by State for a total appropriation of \$126,672,000. For all States, the Insular Areas, Puerto Rico, and the District of Columbia, the data used in computing the allotments are the same data as were used for Title II-B allotments.

The allotments for the Insular Areas are based on unemployment data from

the 1990 census or, if not available, the most recent data available. Title II-C funds are to be distributed among designated SDAs in accordance with the statutory formula contained in Section 262(b) of JTPA, as amended by Title VII, Miscellaneous Provisions, of the JTPA Amendments of 1992. The Title II-C formula is the same as for Title II-B. This is the same formula which was used in the previous program year.

JTPA Title III Allotments

The Attachment shows the PY 1997 JTPA Title III Dislocated Worker Program allotments by State, for a total of \$1,286,200,000. The total includes 80 percent allotted by formula to the States and 20 percent for the National Reserve, including funds allotted to the Insular Areas.

Title III formula funds are to be distributed to State and substate grantees in accordance with the provisions in Section 302 (c) and (d) of JTPA, as amended.

Except for the Insular Areas, the unemployment data used for computing these allotments, relative numbers of unemployed and relative numbers of excess unemployed, are averages for the October 1995 through September 1996 period. Long-term unemployed data used were for CY 1995. Allotments for the Insular Areas are based on the PY 1997 Title II-A allotments for these areas.

A reallocation of these published Title III formula amounts, as provided for by Section 303 of JTPA, as amended, will be based on completed program year expenditure reports submitted by the States and received by October 1, 1997. The Title III allotment for each State will be adjusted upward or downward, based on whether the State is eligible to share in reallocated funds or is subject to recapture of funds.

Wagner-Peyser Act Employment Service Final Planning Estimates

The Attachment shows preliminary planning estimates which have been produced using the formula set forth at Section 6 of the Wagner-Peyser Act, 29

U.S.C. 49e. These allotments are based on averages for the most current 12 months ending September 1996 for each State's share of the civilian labor force and unemployment. Final planning estimates will be published in the **Federal Register**, based on Calendar Year 1996 data, as required by the Wagner-Peyser Act.

The total planning estimate includes \$18,000,000 of the total amount available, which is being withheld from distribution to States to finance postage costs associated with the conduct of Employment Service business for PY 1997.

The Secretary of Labor has set aside 3 percent of the total available funds to assure that each State will have sufficient resources to maintain statewide employment services, as required under Section 6(b)(4) of the Wagner-Peyser Act. In accordance with this provision, \$22,312,050 is set aside for administrative formula allocation. These set-aside funds are included in the total planning estimate. Set-aside funds are distributed in two steps to States which have lost in their relative share of resources from the prior year. In step one, States which have a CLF below one million and are below the median CLF density are maintained at 100 percent of their relative share of prior year resources. All remaining set-aside funds are distributed on a pro rata basis in step two to all other States losing in relative share from the prior year, but which do not meet the size and density criteria for step one.

Ten percent of the total sums allotted to each State shall be reserved for use by the Governor to provide performance incentives for public employment service offices, services for groups with special needs, and for the extra costs of exemplary models for delivering job services.

Signed at Washington, D.C., this 28 day of April, 1996.

Raymond Uhalde,

Acting Assistant Secretary of Labor for Employment and Training.
