

associated with participation in the program. Finally, Part I.L. generally prohibits the company from misrepresenting the price of any weight loss program.

Health Risks Claims

According to the complaint, Jenny Craig provides its customers with diet protocols that require the customers to come into one of proposed respondents' centers once a week for monitoring of their progress, including weighing in. In the course of regularly ascertaining weight loss progress, respondents, in some instances, have been presented with weight loss results indicating that customers are losing weight significantly in excess of their projected goals, which is an indication that they may not be consuming all of the food prescribed by their diet protocol. According to the complaint, such conduct could, if not corrected promptly, result in health complications. The Commission's complaint alleges that Jenny Craig failed to disclose to consumers who were losing weight significantly in excess of their projected goals that failing to follow the diet protocol and consume all of the food prescribed could result in health complications.

The proposed consent order seeks to address this allegation in two ways. First, the proposed order, in Part I.K., requires Jenny Craig to disclose in writing to all participants, when they enter the program, that failure to follow the program protocol and eat all of the food recommended may involve the risk of developing serious health complications. Second, the proposed order, in Part I.L., generally prohibits any misrepresentation concerning the safety of any weight loss program.

Customer Satisfaction Claims

The complaint also alleges that Jenny Craig deceptively advertised that "nine out of ten" Jenny Craig clients would recommend Jenny Craig to their friends. The complaint further alleges that the company's claim that competent and reliable studies or surveys substantiate the "nine out of ten" claim was false.

The proposed order seeks to address these claims in two ways. First, Part I.M. would require respondents to possess competent and reliable evidence (which when appropriate must be competent and reliable scientific evidence) for any representation that participants on any weight loss program recommend or endorse the program. Second, Part I.N. would prevent respondents from misrepresenting the existence, contents, validity, results, conclusions, or

interpretations of any test, study, or survey.

The purpose of this analysis is to facilitate public comment on the proposed order, and it is not intended to constitute an official interpretation of the agreement and proposed order, or to modify in any way their terms.

Donald S. Clark,

Secretary.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Office of Inspector General

Statement of Organization, Functions and Delegations of Authority

This Notice amends Part A (Office of the Secretary) of the Statement of Organization, Functions and Delegations of Authority for the Department of Health and Human Services (HHS) to reflect recent changes in Chapter AF, Office of Inspector General (OIG). Chapter AF was last published in its entirety on May 13, 1996 (61 FR 22059).

The statement of organization, functions and delegations of authority reflects the original transfer of the statutory basis for the Office of Inspector General from Public Law 94-505 to Public Law 95-452 (and made under the Inspector General Act Amendments of 1988, Public Law 100-504), and conforms to and carries out the statutory requirements for operating the Office of Inspector General. A number of revisions have been made to reflect the consolidation of the Inspector General Division of the Office of the General Counsel and the Office of Litigation Coordination into the new Office of Counsel to the Inspector General (OCIG), and the incorporation of OCIG into the OIG organizational structure. In addition, several technical changes have been made to reflect revised component functions and duties in accordance with new or amended authorities and responsibilities resulting from the Health Insurance Portability and Accountability Act of 1996 (Public Law 104-191). These organizational changes have been made in an effort to assist the
