

resource reserves, production, demand, and technology, and related economic and statistical information relevant to the adequacy of energy resources to meet demands in the near and longer term future for the Nation's economic and social needs.

The EIA, as part of its continuing effort to provide adequate notice when initiating, substantially modifying, or terminating significant information products, (required by the Paperwork Reduction Act of 1995 (Pub. L. 104-13)), is issuing this notice to provide the public and other Federal agencies with an opportunity to comment on the proposed discontinuance of the dissemination of EIA's data files and modeling programs on computer diskettes.

II. Current Actions

EIA currently disseminates statistical data, forecasts, and related information using various methods including printed publications, CD-ROM (EIA's "Energy InfoDisk"), EIA's Internet site (www.eia.doe.gov), an electronic publishing system (EPUB), an electronic mail subscription service ("listerve"), computer diskettes, and, for gasoline and diesel fuel price data, a 24-hour telephone hotline. EIA's Internet site has experienced significant increases each month in accessions while requests for data files and modeling programs on diskette are very infrequent.

Given the numerous methods available for users to acquire EIA's information and to increase the efficiency of EIA's operations, EIA is proposing to discontinue releasing data files and modeling programs on computer diskettes. The diskettes have been available for purchase through the Department of Energy's Office of Scientific and Technical Information (OSTI).

III. Request for Comments

EIA stakeholders and other interested parties should comment on the action discussed in item II.
