National Park Service

Golden Gate National Recreation Area and Point Reyes National Seashore Advisory Commission, Notice of Meeting Cancellation

Notice is hereby given in accordance with the Federal Advisory Committee Act that the meeting of the Golden Gate National Recreation Area and Point Reyes National Seashore Advisory Commission previously scheduled for Wednesday, June 11, 1997 in San Francisco will be cancelled.

The Advisory Commission was established by Public Law 92-589 to provide for the free exchange of ideas between the National Park Service and the public and to facilitate the solicitation of advice or other counsel from members of the public on problems pertinent to the National Park Service systems in Marin, San Francisco and San Mateo Counties. Members of the Commission are as follows:

Mr. Richard Bartke, Chairman
Ms. Naomi T. Gray
Mr. Michael Alexander
Ms. Lennie Roberts
Ms. Sonia Bolaños
Mr. Redmond Kernan
Mr. Merritt Robinson
Mr. John J. Spring
Mr. Joseph Williams
Ms. Amy Meyer, Vice Chair
Dr. Howard Cogswell
Mr. Jerry Friedman
Ms. Yvonne Lee
Mr. Trent Orr
Ms. Jacqueline Young
Mr. R. H. Sciaroni
Dr. Edgar Wayburn
Mr. Mel Lane

Dated: May 28, 1997.

Len McKenzie,

General Superintendent, Golden Gate National Recreation Area.

BILLING CODE 4310-70-P

DEPARTMENT OF THE INTERIOR

Bureau of Reclamation

Proposed Water Supply Exchange Contract, Yakima Project, Washington

AGENCY: Bureau of Reclamation, Interior.

ACTION: Notice of intent to prepare an environmental impact statement.

SUMMARY: Pursuant to section 102(2)(C) of the National Environmental Policy Act (NEPA) of 1969, as amended, the Bureau of Reclamation (Reclamation) proposes to prepare an environmental impact statement (EIS) on a proposed water exchange contract with Trendwest Resorts, Inc. (Trendwest) in Kittitas County, Washington. The purpose of the water exchange contract is to provide a water supply for a Master Planned Resort, proposed for development by Trendwest on property owned by JELD-WEN, Inc. near Roslyn, Washington. Trendwest intends to purchase 3,500 acre-feet of privately owned water rights in tributaries to the Yakima River which it proposes to exchange for storage water from Reclamation's Yakima Project. The exchange would also enable Reclamation to augment instream flows for anadromous fish in streams tributary to the Yakima River.

FOR FURTHER INFORMATION CONTACT: David Kaumheimer, Environmental Programs Manager, or Candace McKinley, Environmental Protection Specialist, at Reclamation's Upper Columbia Area Office, P.O. Box 1749, Yakima, Washington 98907-1749; telephone: (509) 575-5848.

SUPPLEMENTARY INFORMATION: Trendwest has submitted an application to Kittitas County (County) to develop a Master Planned Resort on a 7,420-acre site near Roslyn. The County has made a determination of significance under the Washington State Environmental Policy Act (SEPA) and has announced its intention to prepare an EIS under SEPA. Kittitas County has invited Reclamation, Washington Department of Ecology, and the Yakima Indian Nation to be cooperating agencies in that effort. The County's SEPA document will address impacts associated with development of the proposed resort, including impacts associated with water supply alternatives including the proposed water exchange with Reclamation.

Reclamation will not initiate work on its NEPA document until the County has substantially completed its SEPA document. The selection and analysis of water supply alternatives in the SEPA EIS will help Reclamation determine which portions of the overall resort

development should be considered connected actions for the NEPA analysis and whether an EIS or an environmental assessment would be the appropriate NEPA documentation. In the interim, Reclamation assumes that an EIS will be necessary. Reclamation may adopt, with or without supplementary information, the County's SEPA EIS as its NEPA document or may prepare a separate document, incorporating portions of the SEPA EIS by reference, as applicable.

To date Trendwest has acquired water rights to approximately 1,448 acre-feet of water in the Teanaway River and 360 acre-feet of water in Big Creek near Easton, Washington. Additional water purchases would be within the upper portions of the Yakima basin.

Public Involvement

Reclamation plans to conduct public scoping meetings to identify water supply alternatives and impacts. These meetings will be held in mid-June of 1997 at locations in Kittitas and Yakima Counties, Washington. The dates, times, and locations of public scoping meetings will be noted in newspapers of general circulation in both Kittitas and Yakima Counties. Reclamation will summarize comments received during the scoping meetings into a scoping document which will be available to the public. The public is also invited to comment on the process Reclamation plans to use to meet its responsibilities under NEPA. Comments may be submitted to the address in the **FOR FURTHER INFORMATION CONTACT** section.

Dated: May 21, 1997.

John W. Keys, III,

Regional Director, Pacific Northwest Region.
