

potential employers of refugee clients, surveys of presently effective employment service providers, review of studies on employment opportunities/forecasts which would be appropriate to the refugee populations.

g. Description of the monitoring and oversight responsibilities to be carried out by the county or qualifying local jurisdiction.

h. Assurance that the local administrative budget will not exceed 15% of the local allocation. Targeted assistance grants are cost-based awards. Neither a State nor a county is entitled to a certain amount for administrative costs. Rather, administrative cost requests should be based on projections of actual needs. States and counties are strongly encouraged to limit administrative costs to the extent possible to maximize available funding for services to clients.

i. For any State that administers the program directly or otherwise provides direct service to the refugee/entrant population (with the concurrence of the county), the State must provide ORR with the same information required above for review and prior approval.

7. All applicants must establish targeted assistance proposed performance goals for each of the 6 ORR performance outcome measures for each impacted county's proposed service contract(s) or sub-grants for the next contracting cycle. Proposed performance goals must be included in the application for each performance measure. The 6 ORR performance measures are: entered employments, cash assistance reductions due to employment, cash assistance terminations due to employment, 90-day employment retentions, average wage at placement, and job placements with available health benefits. Targeted assistance program activity and progress achieved toward meeting performance outcome goals are to be reported quarterly on the ORR-6, the "Quarterly Performance Report."

States are required to set proposed outcome goals for each of the 6 ORR performance outcome measures. New grantees may use baseline data, as available, and current data as reported on the ORR-6 for social services program activity to assist them in the goal-setting process.

Proposed targeted assistance outcome goals should reflect improvement over past performance and strive for continuous improvement during the project period from one year to another.

8. An identification of the contracting cycle dates for targeted assistance service contracts in each county. States with more than one qualified county are

encouraged to ensure that all counties participating in TAP in the State use the same contracting cycle dates.

9. A description of the State's plan for conducting fiscal and programmatic monitoring and evaluations of the targeted assistance program, including frequency of on-site monitoring.

10. Assurance that the State will make available to the county or designated local entity not less than 95% of the amount of its formula allocation for purposes of implementing the activities proposed in its plan, except in the case of a State that administers the program locally as described in item 6i above.

11. A line item budget and justification for State administrative costs limited to a maximum of 5% of the total award to the State. Each total budget period funding amount requested must be necessary, reasonable, and allocable to the project. States that administer the program locally in lieu of the county, through a mutual agreement with the qualifying county, may add up to, but not exceed, 10% of the county's TAP allocation to the State's administrative budget.

12. Assurance that the State will follow or mandate that its sub-recipients will follow appropriate State procurement and contract requirements in the acquisition, administration, and management of targeted assistance service contracts.

X. Reporting Requirements

States are required to submit quarterly reports on the outcomes of the targeted assistance program, using Schedule A and Schedule C of the new ORR-6 Quarterly Performance Report form.

Dated: June 2, 1997.

Lavinia Limon,

Director, Office of Refugee Resettlement.

Fish and Wildlife Service

Availability of a Habitat Conservation Plan and Receipt of an Application for an Incidental Take Permit for Raley's Landing Project, Yolo County, California

AGENCY: Fish and Wildlife Service

ACTION: Notice of receipt.

SUMMARY: This notice advises the public that Raley's has applied to the U.S. Fish and Wildlife Service (Service) for an incidental take permit pursuant to section 10(a)(1)(B) of the Endangered Species Act of 1973, as amended. The application has been assigned permit number PRT-829945. The proposed permit would authorize the incidental take of the valley elderberry longhorn beetle (*Desmocerus californicus dimorphus*), federally listed as threatened, and/or modification or degradation of its habitat during the development of a commercial center in Yolo County, California. The permit would be in effect for 5 years.
