

Clean Air Act, as amended in 1990 (CAA). Arizona's fuel requirement is not preempted by federal fuels requirements because EPA is proposing to find that the control measure is necessary for the Maricopa area to attain the national ambient air quality standards (NAAQS) for ozone and is proposing to approve the measure into the Arizona SIP.

In the final rules section of this **Federal Register**, the EPA is approving the State's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial revision and anticipates no adverse comments. A detailed rationale for this approval is set forth in the direct final rule. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period on this document. Any parties interested in commenting on this action should do so at this time.

**DATES:** Comments on this proposed rule must be received in writing by July 11, 1997.

**ADDRESSES:** Written comments should be sent to the Region IX contact listed below. Copies of the SIP revision are available in the docket (#AZ-RVP-97) for this rulemaking, which is open for public inspection at the addresses below. A copy of this notice is also available on EPA, Region IX's website at <http://www.epa.gov/region09>.
