

Gas from 0.68% to 0.76% effective July 1, 1997.

CIG states that the increase reflected by the instant filing is primarily traceable to conditions prevailing during the first quarter of Calendar Year 1997. That period was marked by a dramatic increase in prices for natural gas on the spot market. By contrast, prices for natural gas liquids remained relatively constant during this period.

CIG states that copies of this filing have been served on CIG's jurisdictional customers and public bodies.
