[Docket No. RP97-54-005]

Trailblazer Pipeline Company; Notice of Compliance Filing

June 9, 1997.

Take notice that on June 4, 1997, Trailblazer Pipeline Company (Trailblazer) tendered for filing to be part of the its FERC Gas Tariff, Third Revised Volume No. 1, Original Sheet No. 203A, to be effective May 1, 1997.

Trailblazer states that Original Sheet No. 203A was filed in compliance with OPR Letter Order issued May 30, 1997 in Docket No. RP97-54-004 (Letter Order), which directed Trailblazer to repaginate Original Sheet No. 204 filed on May 2, 1997 in Docket No. RP94-54-004.

Trailblazer states that a copy of the filing has been served on its transportation customers, interested state commissions and all parties set out on the official service list at Docket Nos. RP97-54-000, et al.

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington D.C. 20426, in accordance with Section 385.211 of the Commission's Regulations. All such protests must be filed as provided in Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

Lois D. Cashell,

Secretary.

[Docket No. CP93-541-008]

Young Gas Storage Company, Ltd.; Notice of Petition to Amend

June 9, 1997.

Take notice that on May 23, 1997, Young Gas Storage Company, Ltd. (Young), Post Office Box 1087, Colorado Springs, Colorado 80944, filed in Docket No. CP93-541-008, a petition to amend the authorizations issued on June 22,

1994 and October 5, 1995 in Docket Nos. CP93-541-000 *et al.* pursuant to Section 7(c) of the Natural Gas Act (NGA), and Part 157 of the Federal Energy Regulatory Commission's (Commission) regulations, to drill and operate new injection/withdrawal and observation wells, convert one injection/withdrawal well to an observation well and make minor modifications to the storage gathering system, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Young states that upon further study and data gained in the development of the storage field, certain changes to well requirements are needed to provide for the continued development of the storage field so that service may be provided at certificated levels. Specifically, Young seeks authorization to: (i) Drill and operate two injection/withdrawal wells, well nos. 38 and 39, and one observation well, well no. 40; (ii) construct and operate a total of about 3,100 feet of 6-inch diameter pipeline to connect well nos. 38 and 39 to the storage gathering system; (iii) convert well no. 25 to an observation well; and (iv) make minor modifications to the storage gathering system. Young avers that the modifications proposed herein will enable Young to meet its certificated withdrawal level of 170 MMcf per day for the 1997-1998 heating season.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 30, 1997, file with the Federal Energy Regulatory Commission, Washington, DC 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Section 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is

filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for the Young to appear or be represented at the hearing.

Lois D. Cashell,

Secretary.

[Docket No. CP97-193-000]

Transcontinental Gas Pipe Line Corp., Notice of Availability of the Environmental Assessment for the Proposed Maiden Lateral Looping Project

June 9, 1997.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared an environmental assessment (EA) on the natural gas pipeline facilities proposed by Transcontinental Gas Pipe Line Corporation (Transco) in the above-referenced docket.

The EA was prepared to satisfy the requirements of the National Environmental Policy Act. The staff concludes that approval of the proposed project, with appropriate mitigating measures, would not constitute a major Federal action significantly affecting the quality of the human environment.

The EA assesses the potential environmental effects of the construction and operation of the natural gas expansion facilities including:

- About 17.77 miles of 16-inch-diameter pipeline loop on Transcos existing 10-inch diameter Maiden Delivery Lateral in Lincoln and Catawba Counties, North Carolina; and
- The expansion of Transcos existing Lowesville Meter Station, which is located at the interconnection of Transcos mainline and the Maiden Delivery Lateral.

Transco would transport an additional 38,000 dekatherms of natural gas per day to Piedmont Natural Gas Company.
