

Plan of Operations. Additional scoping meetings may be held as appropriate. Written comments on the Plan of Operations and the scope of the EIS will be accepted until July 18, 1997.

A draft environmental impact statement (DEIS) is expected to be completed by the spring of 1998 and made available for public review and comment. At that time a notice of availability of the DEIS will be published in the **Federal Register**. The comment period on the DEIS will be 60 days from the date the notice of availability is published.

FOR FURTHER INFORMATION CONTACT: Scoping comments may be sent to: District Manager, Bureau of Land Management, 3900 E. Idaho St., Elko, NV 89801. ATTN: South Operations Area Project Amendment EIS Coordinator. For additional information, write to the above address or call Roger Congdon at (702) 753-0200.

SUPPLEMENTARY INFORMATION: Newmont Gold Company of Carlin, Nevada has submitted a Plan of Operations to expand and continue their Gold Quarry open pit mine, located approximately six miles northwest of the town of Carlin. The mine and associated facilities are located in portions of Sections 22, 26, 27, 28, 33, 34, 35, and 36 of Township 34 North, Range 51 East, Sections 29, 31, and 32 of Township 34 North, Range 52 East, Sections 1, 2, 3, 10, 11, 12, 13, and 14 of Township 33 North, Range 51 East, and Sections 6 and 7 of Township 33 North, Range 52 East, MDM. Newmont developed the Gold Quarry open pit mine in 1980, when it was known as the Maggie Creek pit. It is currently permitted through the year 2001. The proposal is to continue operations at the Gold Quarry mine; expand existing waste rock dumps, and continue dewatering operations through the year 2013. Existing and approved operations have been analyzed through the year 2001 for impacts to 2,047 acres of public land and 5,913 acres of private land. Part of the proposed operation would be confined to previously disturbed areas. Additional surface disturbance is anticipated on approximately 855 acres of public land and 465 acres of private land. The issues expected to be analyzed in the EIS include potential impacts to ground water availability and quality, wildlife, pit water quality, and cultural resources. Cumulative impacts will also be addressed. In addition, the following resources will be analyzed: recreation and wilderness, geology, paleontology, air quality, soils, vegetation, range management, lands and realty, visual resources, land use

planning, social and economic values, and hazardous materials. The analysis will be conducted by an interdisciplinary team.

A range of alternatives (including but not limited to alternative reclamation measures and the no-action alternative) will be developed to address the issues. Mitigating measures will be considered to minimize environmental impacts and to assure that the proposed action does not result in undue or unnecessary degradation of public lands. Federal, state and local agencies and other individuals or organizations who may be interested in or affected by the Bureau's decision on the Plan of Operations are invited to participate in the scoping process with respect to this environmental impact statement. These entities and individuals are also invited to submit comments on the DEIS.

It is important that those interested in the Plan of Operations participate in the scoping and commenting process. Comments should be as specific as possible.

The tentative project schedule is as follows:

Begin Public Comment Period—June 1997.

Issuance of Draft Environmental Impact Statement—Spring of 1998.

File Final Environmental Impact Statement—Autumn of 1998.

Record of Decision—Autumn of 1998.
Begin Permitted Operation—Winter of 1998/1999.

The Bureau of Land Management's scoping process for the EIS will include: (1) Identification of issues to be addressed; (2) Identification of viable alternatives; (3) Notification of interested groups, individuals and agencies so that additional information concerning these issues, or other additional issues, can be obtained.

Dated: June 11, 1997.
