

Guidelines for applications to participate in the experiment will be provided by the Groundfish Forum. Guidelines will include a description of the test and control gear as well as a statement of the rules that must be followed for the experiment. This information will be conveyed to potential applicants through a short publication written and distributed by the Groundfish Forum and reviewed by NMFS personnel associated with the experiment.

The Regional Administrator has approved the EFP application and has issued EFP 97-01 to the Groundfish Forum. The EFP authorizes the Groundfish Forum to solicit vessel participants through the RFP process and authorizes the harvest of 4,700 mt of groundfish during the course of the experiment from July 25, 1997, through August 30, 1997, of which no more than 50 percent, or 2,350 mt, may be species other than yellowfin sole. Groundfish and PSC catch associated with this experiment will not be deducted from total allowable catch and PSC amounts specified for the 1997 groundfish fisheries.

The Regional Administrator may terminate the experiment if prohibited species catch (PSC) exceeds the high-end estimates of the Groundfish Forum; 43.9 mt of Pacific halibut, 30,900 *Chionoecetes bairdi* crab, and 160,700 *C. opilio* crab. Failure of the permittee to comply with the terms and conditions of the EFP may be grounds for revocation, suspension, or modification of the EFP under 15 CFR 600.745(b)(8) with respect to any or all persons and vessels conducting activities under the EFP. Failure to comply with applicable laws may also result in sanctions imposed under those laws.

Classification

NMFS prepared an EA for this EFP. The Assistant Administrator for Fisheries, NOAA, concluded that there will be no significant impact on the human environment as a result of fishing under this EFP. A copy of the EA is available from NMFS (see ADDRESSES). The Regional Administrator determined that fishing activities conducted pursuant to this EFP will not affect endangered and threatened species or critical habitat under the Endangered Species Act.
