FDA regrets that it was unable to publish this notice 15 days prior to the July 10 and 11, 1997, Ophthalmic Devices Panel of the Medical Devices Advisory Committee meeting. Because the agency believes there is some urgency to bring these issues to public discussion and qualified members of the Ophthalmic Devices Panel of the Medical Devices Advisory Committee were available at this time, the Commissioner concluded that it was in the public interest to hold this meeting even if there was not sufficient time for the customary 15-day public notice.

Dated: June 12, 1997.

Michael A. Friedman,

Deputy Commissioner for Operations.

New—The Health Resources and Services Administration (HRSA), Bureau of Primary Health Care (BPHC) is planning to conduct a survey-based study of its primary care programs to examine various implementation issues related to the design and delivery of HIV counseling and testing (HIV C&T) services to women of childbearing age. The survey population will be a probability sample of the BPHC-funded grantees, designed to permit analysis by type of BPHC funding received.

The mail survey instrument will be designed to explore various HIV C&T implementation issues and relevant research questions, including: (a) Extent to which HIV C&T services are available (provided directly by programs or through referrals), (b) attributes of the BPHC programs that offer HIV C&T services to women of childbearing age; (c) characteristics of HIV C&T services, provided by BPHC programs; (d) programmatic and population-specific barriers to delivery of HIV C&T services; (e) lessons and best practices for replication; (f) recommendations for technical assistance to facilitate timely, effective implementation. The resulting analysis and report will present program-based lessons and recommendations for assisting and improving capacity of various BPHC programs to design and implement HIV C&T services for women of childbearing age, and thus assist in promoting community-based HIV C&T services for women, especially pregnant women.
