

maintenance of any facility or project to divert or impound water. Those elements of the approved plan which were not challenged or found inadequate will remain in full force and effect. Issues expected to be analyzed in detail include, but are not limited to, riparian vegetation objectives; protection and enhancement of native plants, including Special Status species plants; appropriate levels, timing, intensity, and locations of livestock grazing within the river corridor, if any; improving existing roads and constructing small parking areas (to the National Historic Register listed Riddle Brothers Ranch) located within the river corridor; timing and use levels of irrigation (if any) of meadows; locations and design for any livestock fences designed to exclude livestock from the river corridor or make pasture systems within and residual pastures outside the corridor to form functional portions of livestock grazing allotments; potential reclassification of one river segment to more accurately reflect the actual level of development and use at the time of river designation; and other issues as identified by interest groups and individuals.

The final decisions for the Donner und Blitzen River considered through this analysis will be in full conformance with the new SEORMP as well as the intent of the Wild and Scenic Rivers Act. The environmental analysis and public and interagency review processes anticipated for this analysis will fully comply with the BLM's regulations for land use planning, including Wild and Scenic River Plan amendments, public involvement, and coordination with other Federal agencies, State, local governments, and Indian tribes, (43 CFR 1610.2, 1610.3 and 1610.5-5).

Any approved decisions which amend the Donner und Blitzen River Plan will be incorporated into the Plan and become part of the permanent planning record. Any refinements or clarifications of management direction and additional information, monitoring or evaluation reports will be incorporated into the applicable plans and documented through published plan maintenance reports, as provided under 43 CFR 1610.5-4. Copies of previous RMP planning project notices, newsletters, and existing land use and river plans are available in the Burns and Vale District Offices and available for inspection during normal working hours.

Disciplines to be represented on the interdisciplinary team preparing the SEORMP and revised River Plan and EIS include, but are not limited to, archaeology, anthropology, economics,

lands and minerals, recreation, wilderness, wildlife biology, fisheries, hydrology, botanical, soils, geology, range management, and wild horse herd management.

Copies of this announcement or equivalent information are being distributed to those individuals already on the Wild and Scenic River and SEORMP/EIS mailing lists. To be added to these lists, individuals should contact the RMP Team Leader. The BLM is inviting comments to be considered in the preparation of the expanded EIS for the revisions to the Donner und Blitzen River Plan. Comments may be addressed to Miles Brown, Andrews Resource Area Manager, at the Burns District Office. Comments should be postmarked by July 23, 1997. No public meetings have been exclusively scheduled for this proposal at this time; however, meetings may be arranged through the Andrews Resource Area Manager or RMP Team Leader. A series of open houses or public meetings will be held during the 90-day comment period on the draft plans and EIS, in the fall of 1997. Any public meetings will be announced at least 15 days in advance. The purpose of this scoping is to offer the public, tribes, partner agencies, and counties additional time to provide supplemental issues or information to the EIS process. Pursuant to 7 CFR, Part 1, Sub-part B, Section 1.27, all written submissions in response to this notice shall be made available for public inspection including the submitter's name, unless the submitter specifically requests confidentially. Anonymous comments will not be accepted. All written submissions from business entities and organizations, submitted on official letterhead, in response to this notice shall be made available for public inspection in their entirety.

Detailed information concerning the proposed SEORMP and revised River Plan, including the draft EIS, will be available at a later date at BLM offices in Burns, Vale, and Portland, Oregon, and at scheduled public meetings. In Burns and Ontario, Oregon, this information will also be available at the Harney and Malheur public libraries.

Dated: June 17, 1997.
