Foreign-Trade Zones Board

[Docket 49-97]

Foreign-Trade Zone 3, San Francisco, CA; Application for Foreign-Trade Subzone Status; Chevron U.S.A. Inc.; (Oil Refinery Complex); Richmond, CA

An application has been submitted to the Foreign-Trade Zones Board (the Board) by the San Francisco Port Commission, grantee of FTZ 3, requesting special-purpose subzone status for the oil refinery complex of Chevron U.S.A. Inc., located in Richmond, California. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the regulations of the Board (15 CFR part 400). It was formally filed on June 12, 1997.

The refinery complex (240,000 BPD, 1,460 employees) is located on a 2,900-acre site at 841 Chevron Way, in Richmond (Contra Costa County), California, some 25 miles northeast of San Francisco. The refinery is used to produce fuels and petrochemical feedstocks. Fuel products include gasoline, jet fuel, distillates, naphthas and motor fuel blendstocks. Petrochemical feedstocks and refinery by-products include methane, ethane, propane, propylene, butane, petroleum coke, sulfur and carbon black oil. Some 11 percent of the crude oil (92 percent of inputs), and some motor fuel blendstocks are sourced abroad.

Zone procedures would exempt the refinery from Customs duty payments on the foreign products used in its exports. On domestic sales, the company would be able to choose the Customs duty rates that apply to certain petrochemical feedstocks and refinery by-products (duty-free) by admitting incoming foreign crude oil and natural gas condensate in non-privileged foreign status. The duty rates on inputs range from 5.25¢/barrel to 10.5¢/barrel. The application indicates that the savings
