Forest Service

Oregon Coast Provincial Advisory Committee Meeting

AGENCY: Forest Service, USDA.

ACTION: Notice of meeting.

SUMMARY: The Oregon Coast Provincial Advisory Committee (PAC) will meet on July 10, 1997, in Tillamook, OR, at the Shilo Inn (Wilson River Room), 2515 N. Main (Highway 101), Tillamook, OR. The July 10 meeting will begin at 8:00 a.m. and continue until 3:30 p.m. Agenda items to be covered include: (1) Monitoring (completed and upcoming province-wide monitoring); (2) late-successional reserve assessments; (3) PAC subcommittees meet to focus on: what are key issues within topics (salmon, monitoring, water quality, timber), and what are desired accomplishments relating to these issues over the next 6-12 months? To be followed by discussion by full PAC; and (4) open public forum. All Oregon Coast Provincial Advisory Committee meetings are open to the public. An "open forum" is scheduled at 2:45 p.m. Interested citizens are encouraged to attend. The committee welcomes the public's written comments on committee business at any time.

FOR FURTHER INFORMATION CONTACT: Direct questions regarding this meeting to Trish Hogervorst, Public Affairs Officer, Bureau of Land Management, at (503) 375-5657, or write to Forest Supervisor, Siuslaw National Forest, P.O. Box 1148, Corvallis, OR 97339.

Dated: June 17, 1997.

James R. Furnish,

Forest Supervisor.

Rural Utilities Service

Horry Electric Cooperative; Finding of No Significant Impact

AGENCY: Rural Utilities Service, USDA.

ACTION: Notice of Finding of No Significant Impact.

SUMMARY: Notice is hereby given that the Rural Utilities Service (RUS) has made a finding of no significant impact (FONSI) with respect to a request from Horry Electric Cooperative for financing assistance from the Rural Utilities Service (RUS) related to the construct of a new warehouse facility in Horry County, South Carolina.

FOR FURTHER INFORMATION CONTACT: Bob Quigel, Environmental Protection Specialist, Engineering and Environmental Staff, RUS, Stop 1571, 1400 Independence Avenue, SW, Washington, D.C. 20250-1571, telephone (202) 720-0468, E-mail at bquigel@rus.usda.gov.

SUPPLEMENTARY INFORMATION: The new warehouse facility is proposed to be located just north of South Carolina Highway 165 northwest of Conway, South Carolina. The size of the proposed site for the new warehouse facility is approximately 23 acres.

The new warehouse facility will consist of a 25,739 square foot warehouse, a 8,9093 square foot vehicle storage and crew quarters building, and a 7,550 square foot apparatus shop. The three buildings will be one story and will be constructed mostly of metal with concrete block masonry facing up to the first 10 feet. Above the 10 feet will be metal panels finished with various colors as yet to be determined. The overall height of the building walls will be 19 to 20 feet. The walls of the vehicle storage building will be open so that vehicles can drive through the building. An area on the front of the proposed site abutting South Carolina Highway 165 will be reserved for a new administration building. It is unknown at this time when the construction on

the administration building would begin. Most of site surrounding the three buildings will be covered with asphalt or concrete. These asphalt or concrete areas will be used for pole storage and a staging area for construction and maintenance crews that maintain Horry Electric Cooperative's distribution system. There will be approximately 100 parking places and one access drive into the site. A one-acre, water runoff detention pond will be located on the northeast corner of the property to comply with Horry County drainage requirements. The new warehouse facility will be surrounded by an 8-foot chain link fence topped but three strands of barbed wire.

RUS considered the alternatives of no action and expanding Horry Electric Cooperative's existing warehouse facility. Under the no action alternative, RUS would not approve financing assistance for construction of the new warehouse facility. Since RUS believes that Horry Electric Cooperative has a need to expand its district facility to provide adequate storage and parking facilities and to overcome a problem with traffic congestion at its existing warehouse, it has determined that the no action alternative is not acceptable. The expansion of the existing new warehouse is not practicable as there is not enough space available there for the needed storage and parking expansion. Also, traffic congestion is a problem at their existing warehouse facility.

Copies of the BER and FONSI are available for review at, or can be obtained from, RUS at the address provided herein or from Mr. Merrell W. Floyd, Horry Electric Cooperative, P.O. Box 119, Conway, South Carolina 29528-0119, telephone (803) 248-6040.

Dated: June 18, 1997

Adam M. Golodner,

Deputy Administrator, Program Operations.
