SUPPLEMENTARY INFORMATION:

I. Background

The Worker Profiling and Reemployment Services (WPRS) program allows for the targeting of reemployment services to those most in need. The ETA 9048 and ETA 9049 are the only means of tracking the activities in the WPRS program. The ETA 9048

reports on the flows of claimants through the various stages of the WPRS system from initial profiling through to completion of various types of services allowing for evaluation and monitoring of the program. The ETA 9049 gives a limited, but inexpensive, look at the reemployment experience of profiled claimants who were referred to services by examining the State's existing wage record files to see in what quarter the referred individuals show up in employment, what wages they are earning and if they have changed industries.

II. Current Actions

As the only continuous source of information on the WPRS program, the data is required to monitor and evaluate that program. No revisions are being requested. Because of a late start in the collection for the ETA 9049 report, there is no data to evaluate at this time. When several years of data are available for

that report, it will be evaluated as to its continuing use and worth and decisions will be made as to whether to continue and/or change the data collected.

Type of Review: Extension with one minor change eliminating the requirement of one data element.

Sunbeam Sunbeam Household Products—Cookeville Cookeville, TN; Notice of Revised Determination on Reopening

On April 14, 1997, the Department, on its own motion reviewed the negative

determination regarding worker eligibility to apply for NAFTA Transitional Adjustment Assistance applicable to workers of the Sunbeam Corporation located in Cookeville, Tennessee, signed on July 3, 1996 and published in the **Federal Register** on August 2, 1996 (61 FR 40454).

The initial investigation resulted in a negative determination because Sunbeam did not import small electric motors from Mexico or Canada, nor was there a shift of production to Mexico or Canada. Furthermore, the company made the decision to shift small electric motor production to another domestic facility.

New information provided by the company on reopening the investigation shows that the majority of small electric motor production at the Cookeville plant was shifted to Mexico.

Conclusion

After careful review of the facts obtained on reconsideration, I conclude that there was a shift in production from the workers' firm to Mexico of articles that are like or directly competitive with those produced by the subject firm. In accordance with the provisions of the Trade Act, I make the following certification:

All workers of Sunbeam, Sunbeam Household Products-Cookeville, Cookeville, Tennessee who became totally or partially separated from employment on or after May 28, 1995 are eligible to apply for NAFTA-TAA under Section 250 of the Trade Act of 1974.

Signed in Washington, D.C. this 12th day of June 1997.

Russell T. Kile,

Program Manager, Policy and Reemployment Services, Office of Trade Adjustment Assistance.
