The meeting will be held at the Naval Command, Control and Ocean Surveillance Center, Research, Development, Test and Evaluation Division, San Diego, California. The session on July 14 will commence at 8:30 a.m. and terminate at 5:00 p.m.; the sessions on July 15 through July 18, and July 21 through 24, will commence at 8:00 a.m. and terminate at 11:30 a.m. All sessions of these meetings will be closed to the public.

The purpose of these meetings is to discuss basic and advanced research and technology. All sessions of the meetings will be devoted to briefings, discussions and technical examination of information related to science and technology opportunities that have the potential for major impact on engineering and operational flexibility over the lifetime of new Navy ship classes now under construction; and science and technology opportunities and current technologies associated with Department of the Navy logistics initiatives in order to resupply forward-deployed Small Unit Operations, with minimum footprint and exposure time, and maintain communications for a specified period. These briefings and discussions will contain classified and proprietary information that is specifically authorized under criteria established by Executive Order to be kept secret in the interest of national defense and are in fact properly classified pursuant to such Executive Order. The classified, proprietary, and non-classified matters to be discussed are so inextricably intertwined as to preclude opening any portion of the meeting.
