

findings required by the Atomic Energy Act of 1954, as amended, and NRC's regulations. These findings will be documented in a Safety Evaluation Report and an Environmental Assessment. The renewal of the license will be documented in the issuance of a renewed SMB-743 license.

The NRC hereby provides notice that this is a proceeding on an application for renewal of a license falling within the scope of Subpart L. "Informal Hearing Procedures for Adjudication in Materials Licensing Proceedings," of NRC's rules and practice for domestic licensing proceedings in 10 CFR part 2. Pursuant to Section 2.1205(a), any person whose interest may be affected by this proceeding may file a request for a hearing in accordance with § 2.1205(c). A request for a hearing must be filed within thirty (30) days of the date of publication of the **Federal Register** notice.

The request for a hearing must be filed with the Office of the Secretary either:

1. By delivery to the Docketing and Services Branch of the Office of the Secretary at One White Flint North, 11555 Rockville Pike, Rockville, MD 20852-2738; or
2. By mail or telegram addressed to the Secretary, U.S. Nuclear Regulatory Commission, Washington DC 20555. Attention: Docketing and Services Branch.

In addition to meeting other applicable requirements of 10 CFR Part 2 of the NRC's regulations, a request for a hearing filed by a person other than an applicant must describe in detail:

1. The interest of the requester in the proceeding;
2. How that interest may be affected by the results of the proceeding, including the reasons why the requester should be permitted a hearing, with particular reference to the factors set out in § 2.1205 (g);
3. The requester's concerns in the area of licensing activity that is the subject matter of the proceeding; and
4. The circumstances establishing that the request for a hearing is timely in accordance with § 2.1205 (c).

In accordance with 10 CFR § 2.1205(e), each request for a hearing must also be served, by delivering it personally or by mail to:

1. The applicant, Shieldalloy Metallurgical Corporation to the attention of Mr. Scott Eves, West Boulevard, P.O. Box 768, Newfield, NJ 08344; and
2. The NRC staff, by delivery to the Executive Director for Operations, One White Flint North, 11555 Rockville Pike, Rockville, MD 20852; or by mail

addressed to the Executive Director for Operations, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

Any hearing that is requested and granted will be held in accordance with the NRC's Informal Hearing Procedures for Adjudications in Material Licensing Proceedings in 10 CFR Part 2, Subpart L.

For further details with respect to this action, the licensee's renewal request dated September 15, 1995, and an NRC staff assessment of financial assurance aspects of the renewal (SECY-96-210), dated October 1, 1996, are available for inspection at the NRC's Public Document Room, 2120 L Street N.W., Washington, D.C. 20555. Questions should be referred to NRC's project manager for the Shieldalloy, Newfield facility, Heather Astwood, at (301) 415-5819. License No: SMB-743.

Dated at Rockville, Maryland, this 25th day of June, 1997.

For the Nuclear Regulatory Commission.

Michael F. Weber,

Chief Licensing Branch, Division of Fuel Cycle Safety and Safeguards, NMSS

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-206, 50-361 AND 50-362]

Southern California Edison Company; San Diego Gas and Electric Company; the City of Riverside, CA; the City of Anaheim, CA; San Onofre Nuclear Generating Station, Unit Nos. 1, 2 and 3; Consideration of Corporate Restructuring

Notice is hereby given that the United States Nuclear Regulatory Commission (the Commission) is considering the issuance of an order under 10 CFR 50.80 approving an application concerning the proposed corporate restructuring of Enova Corporation, parent company for San Diego Gas & Electric Company (SDG&E), one of the co-owners of the San Onofre Nuclear Generating Station, Units 1, 2 and 3, along with Southern California Edison Company, The City of Riverside, California, and The City of Anaheim, California. By letter dated December 2, 1996, SDGE, through Richard A. Meserve of Covington & Burling, counsel for SDG&E, informed the Commission of a proposed corporate restructuring of SDG&E's parent company, Enova Corporation, whereby Enova would combine with Pacific Enterprises, with each becoming a subsidiary of a newly created holding company, Mineral Energy Company (New Holding Company). SDG&E will remain a subsidiary of Enova. SDG&E will remain co-holder of licenses for San

Onofre Units 1, 2 and 3. Under the restructuring, SDG&E's preferred stock and debt will not be affected and will remain securities and obligations of SDG&E. After the restructuring, SDG&E will continue to be a public utility providing the same utility services as it did immediately prior to the reorganization. According to the proposed plan, there will be no significant change in ownership, management, or sources of funds for operation, maintenance, or decommissioning of the San Onofre power stations due to the corporate restructuring.

Pursuant to 10 CFR 50.80, the Commission may approve the transfer of control of a license after notice to interested persons. Such approval is contingent upon the Commission's determination that the holder of the license following the transfer is qualified to hold the license and that the transfer is otherwise consistent with applicable provisions of law, regulations, and orders of the Commission.

For further details with respect to this proposed action, see the letter dated December 2, 1996 by Richard A. Meserve of Covington & Burling. This document is available for public inspection at the Commission's Public Document Room, 2120 L Street, N.W., Washington, DC, and at the local public document room located at the Main Library, University of California, Irvine, California.

Dated at Rockville, Maryland, this 19th day of June 1997.

Mel B. Fields,

Project Manager, Project Directorate IV-2, Division of Reactor Projects III/IV, Office of Nuclear Reactor Regulation.
